Philadelphia's Wistar institute, part of the University of Pennsylvania, specializes in breeding white rats, cousins of the gray rat, not ordinary sewer rats that carry plague.

The rats live in a special rat establishment costing \$60,000, and are shipped to scientific bodies all over the world, including Japan, that scientists may work on "standardized rats" and compare results satisfactorily.

Rats live, die and submit to disease infection, knowing as little as human beings about the why or wherefore. Little do they dream that their tissues, growth and digestive processes happen to resemble those of men, and that they breed, live, die, only to save a higher race from death. Even so, they know as much as we do about primal causes and final purposes.

Why are we breeding and dying?

It pays to save money, if you let compound interest work while you save. The world heard of a little tub into which a Carthaginian child put copper coins, worth six cents, twenty-five hundred years ago. Charles E. Mitchell, head of New York's National City bank, bought the old savings bank, that never paid interest, and will exhibit it in his savings department.

His experts figure that the six cents, had they been originally invested at 4 1/2 per cent compound interest, would amount in dollars to a sum equalling a three and a six, followed by 55 zeros. That amount of money would make a sphere of solid gold with a diameter sixty-two and a half billion times greater than the diameter of the earth.

Such figures are beyond the grasp of any mind, and besides no one is interested in waiting 2,500 years. But account "number 738" in New York's Bank for Savings amounts now to \$2,577, all of which came from a deposit of 45 cents made 100 years ago. The descendants of the original depositors are leaving the money in the same bank, to go on growing. It interests him.

While you work, save some money and let compound interest work for you.

A young man is dismissed from George Washington university because his publication, called "The Lash," criticized the moral character of George Washington. He sues the university, promising to make his next issue worse, with suppressed love letters of the Kip Rhineland trial.

George Washington's friends need not worry. When he was alive, a ramblous Irish newspaper editor accused him of everything, including a plan to make himself king of America. Washington's reputation is still good, the name of the Irish editor is not widely known. That's the good thing about newspapers. They

What Do You Know About The Constitution?

The Constitution of the United States is the accepted pattern in government for the whole world. It is man's most successful attempt to govern himself.

While this document is mentioned more frequently than any other paper in American history many Americans have only a confused idea of its provisions.

To understand your government thoroughly you must know its Constitution. The Washington Information Bureau of this paper will supply you with a copy of the Constitution. Declaration of Independence, and Articles of Confederation without cost.

N. PRESS KERR, SUGGESTS SITE ON BROADWAY FOR STRUCTURE

Council President Outlines Plan at Organization Meet.

PROPOSAL FILED

Hayes Named President Pro Tem; Shone Again Clerk.

Opening gun in a campaign for a new city building, to house fire and police departments, jail, courtroom, all city offices and a public auditorium, was fired at the initial session of the city solons in the municipal courtroom last evening.

President of Council N. P. Kerr offered a proposition which he declared "would not cost the people one cent" and "would give the city something to be proud of." His proposition was received and filed.

Kerr's Proposal.
Kerr, in a communication read at the meeting, suggested the first station site on Broadway and St. Clair avenue for the proposed new structure. With additional property, to be acquired, he advised the erection of a four-story structure, the first floor for fire department, patrol, garage for all city trucks and water works office; second floor offices for mayor, auditor, treasurer, service safety director, chief of police and desk sergeant; third floor for health clinic, sanitary officer, engineer and living quarters for caretaker; fourth floor for municipal court, council chamber and public auditorium; basement for cell quarters, water works storeroom, comfort station and heating plant. The building would be equipped with elevator and shower baths for city employees.

The council president pointed out that the city in 1919 had a building fund of \$52,602.51 which was transferred to the sinking fund. The balance in the Market house fund is \$33,000, which might be turned into the building fund by a vote of the people. He also suggests the sale of the Tay-

Michael Callahan, 87, Confederate Army Veteran, Dies Here

Michael Callahan, aged 87, Civil War veteran, and for 20 years watchman at the D. E. McNicol pottery, died in his home, Third street, at 8:30 o'clock this morning following a week's illness of complication of diseases.

He was born in Ireland, and came to the United States in 1858. Following the Civil War, during which he served four years in an Alabama regiment in the Confederate army, he came to East Liverpool. He had lived here 40 years. He was a member of the Catholic church.

He is survived by two sons and two daughters, John and Jerry Callahan and Mrs. Margaret Bastain and Mrs. William Schepp, all of East Liverpool. His wife died 14 years ago.

Funeral services will be held at 9 o'clock Tuesday morning in the St. Aloysius Catholic church, in charge of Rev. Thomas E. Walsh. Burial will be made in the St. Aloysius cemetery.

HIS MEMORY REFRESHED, ATTORNEY GENERAL RESUMES STAND IN ALUMINUM COMPANY SUIT PROBE

WASHINGTON, Jan. 9.—A series of mild sensations, topped by the "faux memory" of Attorney General John G. Sargent, today featured the senate judiciary committee's investigation of the department of justice's delay in bringing an anti-trust prosecution against the Mellon-owned aluminum company of America.

The developments included an announcement from Assistant Attorney General William J. Donovan that a new anti-trust investigation was being launched against the Aluminum Goods company, a subsidiary of the Mellon concern; a demand by Senator Neely, Democrat, of West Virginia, for abolition of the federal trade commission and Sargent's admission that he didn't "remember" ordering an investigation of the Aluminum company last March.

Midland Worker Is Crushed to Death In Grinding Machine

Joseph Brosky, 48, is Caught in Machinery at Pittsburgh Iron and Steel Foundries Company Plant

Joseph Brosky, 48, was crushed to death, when caught between the wheels of a sand grinding machine at the Pittsburgh Iron and Steel Foundries company's plant, at Midland, at 4 o'clock yesterday afternoon. Life was extinct when his body was removed from the machinery a few minutes after the accident occurred.

DEPUTY REGISTRAR J. S. HILBERT COLLECTS \$20,999.35 AUTO TAG FEES

East Liverpool District Office Also Files 453 Bills of Sale During Period Between Dec. 10 and Jan. 7.

Deputy Registrar James S. Hilbert of East Liverpool, in a report filed in County Auditor G. E. Hamilton's office yesterday, showed the collection of \$20,999.35 in 1925 automobile license fees during the period between Dec. 10 and Jan. 7.

STATE TO RULE ON INHERITANCE TAXES ON PATTERSON ESTATE

Holdings of Late Philanthropist are Estimated to be Worth \$728,920.49—Liabilities Total \$329,611.27.

An application for a determination of the inheritance tax on the estate of the late Monroe Patterson of East Liverpool was filed today with Probate Judge Lodge Riddle at Lisbon. By the executors, Myrtle H. Jones, May Morley Bryan, George A. Patterson and Ida N. Thompson.

The value of the estate has been placed at \$728,920.49 in an itemized report by Attorney William H. Volney.

The court will ask the state tax commissioner to send an expert to Lisbon to determine the issues involved.

The application sets forth that the Mary A. Patterson memorial home for girls now being erected in East Liverpool, as provided by Mr. Patterson before his death, will cost \$270,000, while the liabilities total \$329,611.27, including the cost of the memorial building.

One Bandit Slain, Another Wounded in Battle With Police

KANSAS CITY, Mo., Jan. 9.—One bandit was slain and another badly wounded in a running gun battle between police and bandits who attempted a series of holdups in the downtown section here today.

An employee of the General Advertising company was kidnapped following robbery of the company's payroll, amounting to \$2,500.

Bandits Shoot Two Men.

NEW YORK, Jan. 9.—Two bandits shot and probably mortally wounded George Michaels, a policeman, and Bagdasar Meldoson, who interrupted them while engaged in robbing the latter's grocery store.

Fair, Then Rains Or Snows, Weather Forecast for Week

WASHINGTON, Jan. 9.—Weather outlook for the period January 11 to 16, inclusive:

Ohio Valley—Mostly fair weather except for a period of rains or snows during the latter half of the week. Moderate temperatures most of the week.

Region of Great Lakes—Period of snows or rains the early part of the week and another shortly after the middle of the week. Normal temperatures except for a moderately cold spell about the middle of the week.

Whites Increase Lead Over Blues In Y. M. C. A. Tourney

The Whites increased their lead over the Blues in today's event of the athletic tournament among members of the Junior group of the Y. M. C. A. The Juniors participated in a running broad jump. H. Bailey, Whites, took first place; J. Skidmore, Whites, second; G. Mackall, Blues, third; D. Mantz, Blues, fourth, and D. Feit, Blues, fifth. The standing is: Whites, 426; Blues, 412.

In the 60-yard potato race, conducted by the Elementaries, J. Weston, Whites, took first place; J. Strobel, Whites, second; C. Duff, Whites, third; J. Dawson, Whites, fourth; W. Strobel, Whites, fifth. The standing: Whites, 453; Whites, 453.

The tourney will end next Saturday when the Juniors will play baseball, while the Elementaries will participate in a tug-of-war and relay race.

Canton Physician Indicted.

CANTON, Jan. 9.—California authorities today were asked to aid in the apprehension of Dr. C. E. Exline, noted physician and church leader of this city, indicted by the Stark county grand jury for performing a criminal operation.

"The fact that this order exists does not change my recollection of the matter."

"This memorandum was signed during the first week after I got into office," Sargent added, "and I had forgotten all about it."

"Sargent and Walsh Clash." "It is a memorandum with your signature attached?" asked Senator Walsh (D.) of Montana.

"No, not of that instance," Walsh produced the resolution of the federal trade commission refusing to turn over to the department of jus-

J. C. THOMPSON CLOSES DEAL FOR DIAMOND BUSINESS SITE

Stag Hotel Building Sold by Altman Brothers.

CHANGES PLANNED

Mrs. Millie Elitzer Acquires Foutts Structure.

Sale of the four-story brick building in the Diamond, commonly known as the Stag hotel, by Morris and Harry Altman, to John C. Thompson, was announced today. The consideration was not made public.

The new owner, who owns the three-story brick business building at the corner of Sixth and Market streets, adjoining the hotel structure, has assumed charge of the property. Minor improvements, including connecting doors on the second and third floors, will be made.

Altman Brothers purchased the structure nine and one-half years ago from John Anderson, a resident of Pennsylvania. The basement and first floor of the building are occupied by a chain cigar store, whose lease runs three and one-half years. Second, third and fourth floors, having 14 rooms, are used for hotel purposes. The structure covers a ground space of 19x57 feet. There will be no change in the tenant for the present.

Mrs. Millie Elitzer has purchased from Mrs. Anna B. Foutts, through the C. W. Henderson agency, the two-story brick business building at 622 Dresden avenue, north of the Diamond. The consideration was \$12,500. The basement and store room on the first floor are occupied by a soft drink establishment of which William Elitzer, husband of the new owner, is part owner. Living quarters are located on the second floor.

Rev. W. C. Stokes Will Give Sermon On Law Defiance

Bootlegging, gambling, immorality and law breaking in general will be discussed by Rev. W. C. Stokes, pastor of the Pennsylvania Avenue Methodist Episcopal church, from his pulpit Sunday evening on the subject, "What's Wrong With East Liverpool?"

Rev. Mr. Stokes declared that he will cite specific cases where liquor is being sold in violation of the federal, state and city ordinances. He will not name violators, but will tell in what neighborhoods they operate, apparently, un molested.

"I will not indulge in personalities, but will be plain spoken," the pastor said today.

WHEELER KINSEY FACES COURT

Wheeler Kinsey, 200 Pennsylvania avenue, was arrested by Patrolman Lister yesterday afternoon upon information of his wife, Mrs. Edith Wheeler, who charged him with assault and battery and asked that he be placed under a peace bond.

Kinsey entered a plea of not guilty when arraigned before Municipal Judge Hanley yesterday afternoon and his trial was set for Monday afternoon. His bond on the assault charge was fixed at \$500, while \$200 was the amount of the peace bond. Unable to furnish either he was remanded to jail.

Mellon's Name Mentioned.

Walsh read Sargent the law creating the federal trade commission which made it an "agent of the government" to investigate violations of anti-trust decrees.

"Didn't you know," asked Walsh, "that the commission was at your command to make this investigation?"

OHIOAN FATALLY HURT WHEN HIS AUTO SKIDS; EIGHT DIE IN CRASHES

Sweepers Keep Street Railway Tracks in East Liverpool and Steubenville Districts Open During Night as Six-inch Fall Blankets Many Cities in Ohio Valley.

INTERURBAN CARS AND TRAINS REPORTED ON NORMAL SCHEDULES

Scrapers are Used on Public Highways to Permit Traffic to Move, While Street Commissioner Buzzard and His Force Clear Paths in City and Open Gutters.

Accompanied by a 40-mile an hour gale that swept the Atlantic seaboard, a snowstorm of blizzard proportions last night and early today raged throughout the east.

The snowfall ranged in different localities from two to eleven inches. Traffic was seriously delayed in many places. Wire communication also suffered.

Many deaths were attributed to the storm. Four were killed in an auto accident on Staten Island, N. Y., resulting from the snow blinding the driver. Four died in like manner at Newport, Mich., and one death was reported from Steubenville, O.

Firemen answering alarms in many cities throughout the east were greatly hampered in their work by frozen water mains.

The weather bureau issued a warning that the storm was sweeping northward along the Atlantic coast.

Nick Russin, 60, of Jamaica, was drowned when a barge, of which he was the captain, broke loose from a tug which was towing it in the East river, and overturned.

Street car and train schedules were normal today while East Liverpool was digging itself out of a six-inch snowfall.

While Weather Forecaster Lawrence Copeland of Millport, estimated the snowfall in the county at six inches, rural districts reported drifts to the depth of three and four feet in places where the wind had a clean sweep.

Early Cars Are Delayed.

Two snow sweepers, housed at the Pennsylvania avenue car barns, were operated by the Steubenville, East Liverpool & Beaver Valley Traction company on its lines in the East Liverpool district early last night, while another covered the Steubenville territory. The sweepers worked most of the night to keep the tracks open.

While the cars on the city lines maintained near normal schedules last night, interurban cars to Beaver, Steubenville and Salem were late. The first cars over the tracks this morning were also late, but after that they operated according to schedule.

The Y. & O. railroad started its snow scraper out at 8 o'clock last night.

All trains on the C. & P. division were on time today. Ticket Agent James Hodgkinson said.

Use Scrapers on Highways.

There were only a few scattering complaints of telephone trouble reaching the Bell exchange here. The snow was dry and did not cling to the wires, officials said.

Snow scrapers owned by the highway department were put on the roads at 10:30 o'clock last night, some of them pulled by two trucks. This

125 Attend Supper By Service League Of Church Ladies

Members of the Ladies' Service league of the First Methodist Episcopal church entertained approximately 125 at supper last night in the church social rooms.

A program of vocal and instrumental music was given following the league's business session.

Miss Florence Updegraff, in a short talk, lauded the league members for their efforts during the recent bazaar.

The program for the personal evangelism campaign was discussed. The campaign will be conducted in 13 districts of the city, as outlined by league officers.

Girl Killed, Two Boys Injured in Coasting Crash

CHARLESTON, W. Va., Jan. 9.—Marcella Hill, 17, died in a hospital here today and Edward Sackett, Jr., and Lester Lanham were recovering from injuries sustained in a coasting accident.

Frank W. Clarke, driving an automobile in a side street, swerved his machine to avoid hitting the coasting party, but a slippery street caused the car to slide into the path of the coasters.

Miss Hill's skull was fractured.

DAYTON WOMAN AUTO VICTIM

Crushed Against Pole as She Alights From Trolley Car.

DAYTON, O., Jan. 9.—Mrs. Nora Belle Helmer, 42, was instantly killed shortly before 6 o'clock this morning when she was struck and crushed against an electric light pole by an automobile driven by E. S. Fetters, 27, who is being held by the police pending an investigation of the accident.

The fatality is the second resulting from automobile accidents in Montgomery county since January 1.

Mrs. Helmer, with her husband, Charles Helmer, had just alighted from a street car and started across the street toward a restaurant, where they were employed when the accident occurred.

Helmer told the police that he had almost succeeded in dragging his wife clear of the auto when his glove pulled off and she slipped from his grasp.

Fetters is a truck driver for the Foley Packing company and was on his way to work at the time of the accident.

Most Children Have

Rickets, Survey Shows

Washington.—Secretary of Labor Davis reports that a preliminary statement of the first 18 months' work in the study of a practical method of community control of rickets conducted by the children's bureau of the United States Department of Labor indicates that 90 per cent of infants develop rickets in its mildest form during the early months of life.

The statement, contained in Secretary Davis' annual report, says: "This has been definitely demonstrated in the course of the study by X-ray photographs of the infants' bones taken at monthly intervals. If this mild form of rickets does not progress to a more severe degree, it has no apparent effect on the infant's general health."

"The investigation has shown that under the influence of cod liver oil and direct sunlight this mild degree of rickets can be completely controlled. Without the use of these measures, rickets will advance to a moderate or marked degree of severity in approximately 25 per cent of the children with resulting deformities and lowered resistance to infection."

N. PRESS KERR, SUGGESTS SITE ON BROADWAY FOR STRUCTURE

Council President Outlines Plan at Organization Meet.

PROPOSAL FILED

Hayes Named President Pro Tem; Shone Again Clerk.

Opening gun in a campaign for a new city building, to house fire and police departments, jail, courtroom, all city offices and a public auditorium, was fired at the initial session of the city solons in the municipal courtroom last evening.

President of Council N. P. Kerr offered a proposition which he declared "would not cost the people one cent" and "would give the city something to be proud of." His proposition was received and filed.

Kerr's proposal, read at the meeting, suggested the fire station site on Broadway and St. Clair avenue for the proposed new structure. With additional property, to be acquired, he advised the erection of a four-story structure, the first floor for fire department, patrol, garage for all city trucks and water works office; second floor offices for mayor, auditor, treasurer, service safety director, chief of police and desk sergeant; third floor for health clinic, sanitary officer, engineer and living quarters for caretaker; fourth floor for municipal court, council chamber and public auditorium; basement for cell quarters, water works storeroom, comfort station and heating plant. The building would be equipped with elevator and shower baths for city employees.

The council president pointed out that the city in 1919 had a building fund of \$52,692.51 which was transferred to the sinking fund. The balance in the Market house fund is \$38,000, which might be turned into the building fund by a vote of the people. He also suggests the sale of the Taylor

Michael Callahan, 87, Confederate Army Veteran, Dies Here

Michael Callahan, aged 87, Civil War veteran, and for 20 years watchman at the D. E. McNicol pottery, died in his home, Third street, at 8:30 o'clock this morning following a week's illness of complication of diseases.

He was born in Ireland, and came to the United States in 1858. Following the Civil War, during which he served four years in an Alabama regiment in the Confederate army, he came to East Liverpool. He had lived here 40 years. He was a member of the Catholic church.

He is survived by two sons and two daughters, John and Jerry Callahan and Mrs. Margaret Bastain and Mrs. William Schupp, all of East Liverpool. His wife died 14 years ago.

Funeral services will be held at 9 o'clock Tuesday morning in the St. Aloysius Catholic church, in charge of Rev. Thomas E. Walsh. Burial will be made in the St. Aloysius cemetery.

HIS MEMORY REFRESHED, ATTORNEY GENERAL RESUMES STAND IN ALUMINUM COMPANY SUIT PROBE

WASHINGTON, Jan. 9.—A series of mild sensations, topped by the "faulx memory" of Attorney General John G. Sargent, today featured the senate judiciary committee's investigation of the department of justice's delay in bringing an antitrust prosecution against the Mellon-owned Aluminum Company of America.

The developments included an announcement from Assistant Attorney General William J. Donovan that a new anti-trust investigation was being launched against the Aluminum Goods company, a subsidiary of the Mellon concern; a demand by Senator Neely, Democrat, of West Virginia, for abolition of the federal trade commission; and Sargent's admission that he didn't "remember" ordering an investigation of the Aluminum company last March.

STATE TO RULE ON INHERITANCE TAXES ON PATTERSON ESTATE

Holdings of Late Philanthropist are Estimated to be Worth \$728,920.49—Liabilities Total \$329,611.27.

An application for a determination of the inheritance tax on the estate of the late Monroe Patterson of East Liverpool was filed today with Probate Judge Lodge Riddle at Lisbon, by the executors, Myrtle H. Jones, May Morley Bryan, George A. Patterson and Ida N. Thompson.

The value of the estate has been placed at \$728,920.49 in an itemized report by Attorney William H. Volney.

The court will ask the state tax commissioner to send an expert to Lisbon to determine the issues involved.

The application sets forth that the Mary A. Patterson memorial home for girls now being erected in East Liverpool, as provided by Mr. Patterson before his death, will cost \$270,000, while the liabilities total \$329,611.27, including the cost of the memorial building.

J. C. THOMPSON CLOSES DEAL FOR DIAMOND BUSINESS SITE

Stag Hotel Building Sold by Altman Brothers.

CHANGES PLANNED

Mrs. Millie Elitzer Acquires Foutts Structure.

Sale of the four-story brick building in the Diamond, commonly known as the Stag hotel, by Morris and Harry Altman, to John C. Thompson, was announced today. The consideration was not made public.

The new owner, who owns the three-story brick business building at the corner of Sixth and Market streets, adjoining the hotel structure, has assumed charge of the property. Minor improvements, including connecting doors on the second and third floors, will be made.

Altman Brothers purchased the structure nine and one-half years ago from John Anderson, a resident of Pennsylvania. The basement and first floor of the building are occupied by a chain cigar store, whose lease runs three and one-half years. Second, third and fourth floors, having 14 rooms, are used for hotel purposes. The structure covers a ground space of 19x57 feet. There will be no change in the tenant for the present.

Mrs. Millie Elitzer has purchased from Mrs. Anna B. Foutts, through the C. W. Henderson agency, the two-story brick business building at 622 Dresden avenue, north of the Diamond. The consideration was \$12,500. The basement and store room on the first floor are occupied by a soft drink establishment of which William Elitzer, husband of the new owner, is part owner. Living quarters are located on the second floor.

Rev. W. C. Stokes Will Give Sermon On Law Defiance

Bootlegging, gambling, immorality and law breaking in general will be discussed by Rev. W. C. Stokes, pastor of the Pennsylvania Avenue Methodist Episcopal church, from his pulpit Sunday evening on the subject, "What's Wrong With East Liverpool?"

Rev. Mr. Stokes declared that he will cite specific cases where liquor is being sold in violation of the federal, state and city ordinances. He will not name violators, but will tell in what neighborhoods they operate, apparently, un molested. "I will not indulge in personalities, but will be plain spoken," the pastor said today.

WHEELER KINSEY FACES COURT

Wheeler Kinsey, 200 Pennsylvania avenue, was arrested by Patrolman Lister yesterday afternoon upon information of his wife, Mrs. Edith Wheeler, who charged him with assault and battery and asked that he be placed under a peace bond.

Kinsey entered a plea of not guilty when arraigned before Municipal Judge Hanley yesterday afternoon and his trial was set for Monday afternoon. His bond on the assault charge was fixed at \$500, while \$200 was the amount of the peace bond. Unable to furnish either he was remanded to jail.

OHIOAN FATALLY HURT WHEN HIS AUTO SKIDS; EIGHT DIE IN CRASHES

Sweepers Keep Street Railway Tracks in East Liverpool and Steubenville Districts Open During Night as Six-inch Fall Blankets Many Cities in Ohio Valley.

INTERURBAN CARS AND TRAINS REPORTED ON NORMAL SCHEDULES

Scrapers are Used on Public Highways to Permit Traffic to Move, While Street Commissioner Buzzard and His Force Clear Paths in City and Open Gutters.

Accompanied by a 40-mile an hour gale that swept the Atlantic seaboard, a snowstorm of blizzard proportions last night and early today raged throughout the east.

The snowfall ranged in different localities from two to eleven inches. Traffic was seriously delayed in many places. Wire communication also suffered.

Many deaths were attributed to the storm. Four were killed in an auto accident on Staten Island, N. Y., resulting from the snow blinding the driver. Four died in like manner at Newport, Mich., and one death was reported from Steubenville, O.

Firemen answering alarms in many cities throughout the east were greatly hampered in their work by frozen water mains.

The weather bureau issued a warning that the storm was sweeping northward along the Atlantic coast.

Nick Russin, 60, of Jamaica, was drowned when a barge, of which he was the captain, broke loose from a tug which was towing it in the East river, and overturned.

Street car and train schedules were normal today while East Liverpool was digging itself out of a six-inch snowfall.

While Weather Forecaster Lawrence Copeland of Millport, estimated the snowfall in the county at six inches, rural districts reported drifts to the depth of three and four feet in places where the wind had a clean sweep.

Early Cars Are Delayed.

Two snow sweepers, housed at the Pennsylvania avenue car barns, were operated by the Steubenville, East Liverpool & Beaver Valley Traction company on its lines in the East Liverpool district early last night, while another covered the Steubenville territory. The sweepers worked most of the night to keep the tracks open.

While the cars on the city lines maintained near normal schedules last night, interurban cars to Beaver, Steubenville and Salem were late. The first cars over the tracks this morning were also late, but after that they operated according to schedule.

The Y. & O. railroad started its snow scraper out at 8 o'clock last night.

All trains on the C. & P. division were on time today. Ticket Agent James Hodgkinson said.

Use Scrapers on Highways. There were only a few scattering complaints of telephone trouble reaching the Bell exchange here. The snow was dry and did not cling to the wires, officials said.

Snow scrapers owned by the highway department were put on the roads at 10:30 o'clock last night, some of them pulled by two trucks. This

125 Attend Supper By Service League Of Church Ladies

Members of the Ladies' Service league of the First Methodist Episcopal church entertained approximately 125 at supper last night in the church social rooms.

A program of vocal and instrumental music was given following the league's business session.

Miss Florence Updegraff, in a short talk, lauded the league members for their efforts during the recent bazaar. The program for the personal evangelism campaign was discussed. The campaign will be conducted in 13 districts of the city, as outlined by league officers.

"We preferred to make our own investigation," said Sargent.

Walsh then brought the name of Secretary of the Treasury Andrew W. Mellon into the hearing. "Have you learned that Secretary Mellon is interested in the ownership of the aluminum company?" asked Walsh.

"Yes, I learned that through the public press," the attorney general replied.

"Had you no information about that fact before you read it in the newspapers?"

"No."

"That was within the last 30 days?"

"I have no knowledge of it," said Sargent. "The only information I have I got from the newspapers. When I read it, I cannot tell you."

Girl Killed, Two Boys Injured in Coasting Crash

CHARLESTON, W. Va., Jan. 9.—Marcella Hill, 17, died in a hospital here today and Edward Sackett, Jr., and Lester Lanham were recovering from injuries sustained in a coasting accident.

Frank W. Clarke, driving an automobile in a side street, served his machine to avoid hitting the coasting party, but a slippery street caused the car to slide into the path of the coasters. Miss Hill's skull was fractured.

DAYTON WOMAN AUTO VICTIM

Crushed Against Pole as She Alights From Trolley Car.

DAYTON, O., Jan. 9.—Mrs. Nora Belle Helmer, 42, was instantly killed shortly before 6 o'clock this morning when she was struck and crushed against an electric light pole by an automobile driven by E. S. Petters, 27, who is being held by the police pending an investigation of the accident. The fatality is the second resulting from automobile accidents in Montgomery county since January 1.

Mrs. Helmer, with her husband, Charles Helmer, had just alighted from a street car and started across the street toward a restaurant, where they were employed when the accident occurred. Helmer told the police that he had almost succeeded in dragging his wife clear of the auto when his glove pulled off and she slipped from his grasp.

Petters is a truck driver for the Foley Packing company and was on his way to work at the time of the accident.

Juvenile Bible Study

One question for each day is provided. The parent will find it interesting and helpful to have the child take up the question each day and aid it in finding the answer in the Scriptures, thus developing a knowledge of the Bible and where to find it in the things decided. Send or bring the little folks to the class Sunday at 1:45 p. m. The "Ceramic Cafeteria Auditorium," 121 West Fifth street. Have them bring their Bibles. The questions for this week are:

170. Did God create only Adam and Eve?
Answer: See Genesis 1:11, 12, 24; 2:9, 19.

171. Who named all of the beasts, birds, fish, etc.?
Answer: See Genesis 2:19, 20.

172. Why did God prepare the Garden of Eden?
Answer: Because the earth was not then perfect. He made the perfect garden for Adam's home.

173. What were Adam and Eve commanded to do?
Answer: See Genesis 1:28.

174. When and how will the earth be filled—replenished—with Adam's race?
Answer: See John 5:28, 29; Acts 24:15; Isaiah 35:10; Acts 17:31, 32; 3:20, 21; 15:14-17; Zephaniah 3:8, 9.

175. Where Adam and Eve on trial for life?
Answer: See Genesis 2:17; Romans 5:12.

176. If Adam had obeyed God, would He have gone to heaven?
Answer: God did not promise Adam a heavenly home, but an earthly one.

PHILIPPINE UNDERWEAR

Entirely Hand Made

Deft fingers have not only made these undergarments, but lavishly embroidered them as well. And for the amount of work they represent, they are amazingly inexpensive. Nightgowns and chemise with scalloped edges or simply hemstitched. Butterflies flitting about or posies blossoming over their surface. Drawn with ribbon and complete with laces and ribbon bows.

Some of the gowns have embroidery in delicate tints. Others plain white. Chemise in all white. Both gowns and chemise have strap or built-up shoulders. Regular and extra sizes—\$1.75 to \$4.50.

"PROGRESS" HOOKED RUGS

Made with "Progress" wool rug yarn.

The vogue for Colonial furniture has revived interest in Hooked Rugs.

From the time of the landing of the Pilgrim Fathers the Hooked Rug has had an interesting history.

The early women settlers wanted to make their log huts and houses more attractive and used their available materials to make floor coverings and had to fashion their own designs. Very attractive patterns showing the exact colors reproduced on a suitable canvas are obtainable in our store. Make your own Hooked Rugs.

Our book of instructions will tell you how to make these rugs.

The frames are priced at \$1.00, \$1.35 and \$1.50.

Rug patterns on canvas, 50c to \$1.35. Square, oval and oblong.

**WEST LIBERTY
DOWNS CHESTER****High Floor Team Loses
Hard Fought Game to
Stoope's Squad.**

Chester high school basketball team was defeated here last night on the Rock Springs park floor by West Liberty Normal by a score of 36 to 24. Chester second team won from the West Liberty Reserves by a score of 22 to 18.

Coch Wild's lads played good basketball and gave the Stoope's outfit

a hard battle. The latter squad had the weight and experience and these factors counted heavily in the final result. Chester, after being outplayed in the first three periods came back strong in the final quarter and for a time made a strong bid for victory. Kiger opened the scoring for West Liberty by caging a double marker under the basket. Campbell came back from Chester with a field goal after he received an accurate pass from Pinney. Kiger shot another field goal and Miller tossed a foul for Chester. Hughes tossed another field goal for the visitors and Bartley repeated a minute later for Chester. Lund scored on a free throw and Kiger shot his third field goal of the quarter for West Liberty. Kiger was taken ill and was replaced by Hughes with Mahoney being substituted in the guard position. Hughes shot a field goal and the first quarter ended with West Liberty leading, score 11 to 5.

Hughes started the second period with a point from the foul line and Bartley repeated for Chester. Mahoney broke into the scoring by tossing a two pointer. Campbell then shot the only field goal made by Chester in this period. West Liberty scored in rapid succession on field goals by Ellis, Mahoney and Lund. They increased their lead at the end of this period by 16 points, the half ending with the score standing 24 to 8.

Chester started out at a rapid clip to bring the third period with Campbell scoring a field goal. Hughes scored from the foul line and Campbell added another score from the free line. Robinson and Lund tossed field goals for the visitors, while Campbell added two more points on a field toss. Miller made a foul for Chester and Hughes scored another field goal for the Stoope's squad. The period ended with the score 21 to 14 in favor of the visitors.

Simcox went in for Bartley in the final period. Pinney took Bartley's place at center while Simcox went to the forward position. Campbell shot a pass to Simcox and the latter sent the ball through the net for two points. In making the toss he was fouled and he counted twice on free throws. Campbell raised the hopes of Chester supporters at this stage when he tossed a field goal. Simcox made two fouls in rapid succession. With West Liberty leading by eight points and only a few minutes to play Mahoney and Lund came through with field goals which made victory certain for their team.

Kiger, Hughes, Lund and Ellis were the stellar performers for West Liberty, while Campbell, Simcox, Bartley and Miller stood out prominent for Chester.

The preliminary tilt was close throughout with Chester reserves outplaying their rivals completely in the second half. Ewing, Jefferies and Miller were the scoring stars for the reserves, while Stevens and Supler made the most points for West Liberty.

EAST LIVERPOOL — AMERICA'S POTTERY CENTER

SATURDAY, JANUARY 9, 1926.

Stand By The Boy Scouts!

The East Liverpool district, including Chester and Newell, W. Va., is asked to contribute \$4,000 toward the \$10,000 budget to be raised by the Columbiana County Council, Boy Scouts of America, in a one-day campaign to be conducted on Wednesday, January 27.

Announcement of plans for the drive, of which T. E. Lewis, former furniture store owner, is to be chairman, was made yesterday by Harry A. Wilson, county scout executive, who has established his headquarters in the Ceramic City.

Similar canvasses will be made in Wellsville, Lisbon and Leetonia, while Salem and Columbiana will take their quotas from community chests.

The Boy Scout movement, in which 601,130 youths are enrolled, has been organized in every state of the Union as well as in the national capital, with President Calvin Coolidge as honorary chieftain. Other honorary officers are Chief Justice William H. Taft, Colin H. Livingstone, Daniel Carter Beard and W. G. McAdoo. James J. Storrow, of Boston, is the active president.

The East Liverpool district, with four troops in the city proper and one each in Chester and Newell, has six units among the 1,120 organizations in Ohio, with a membership of 23,876.

Boy Scouts aim is to be as near as possible like those men who, two and three hundred years ago, pushed their way into what then was the great North American forest, and blazed a way for what has become the United States, the National Council points out. In other words, the Council says, a scout of the present, like our forefathers, must be ready for any emergency.

Let's put across this campaign for future American manhood in record breaking time. The movement deserves support.

A Chance For Bright Minds

Efforts to obtain an endowment of \$5,000,000 for a university to educate young California "geniuses" are said to be meeting with opposition from "an enormous body in California opposing science."

This is a mournful situation in a time and land supposed to represent the peak of civilization. Blind opposition to science can only be characterized as stupidity. For science is simply "organized knowledge," embracing the alphabet and the multiplication table no less than the mechanical sciences and the latest discoveries in biology. And of all the scientific teaching carried on from the kindergarten to the university graduate schools, there is probably less than 1 per cent to which any intelligent person could offer a reasonable objection on grounds of inaccuracy, misrepresentation or bad public policy.

It is said, truly enough, that the promoters of this plan may make mistakes in picking their 1,000 "most gifted children" for this university. No sure way has yet been found for judging genius in childhood. Often a genius is not really recognized until after death. But the principle of selecting the children showing the brightest minds in the performance of their school work, and giving them exceptional opportunities for further learning, is sound.

A little of the effort lavished on backward pupils might go a long way if devoted to exceptionally gifted ones. There is no greater educational tragedy than holding back alert, eager minds and forcing them to keep pace with slow minds. This new university should be a good thing, if it accomplished nothing more than encouraging greater flexibility in the whole educational system to give the best minds an untrammelled chance for progress.

Enemies Of Birds

The argument between cat-lovers and bird-lovers is probably endless. Now and then, however, they say things to each other which are deserving of thoughtful consideration. A cat-lover, in a recent letter to a daily newspaper, made these pertinent remarks:

"Has man any right to take a gun and go out to the birds' abode and shoot them down ruthlessly? He does this not for food, but for sport, so-called."

"Against the cat the bird's chances of escape or capture are about equal. I feel that man is much the crueler creature. In the woods he is the only wild animal. Man is the only enemy of all animals."

"So don't be too hard on the cat while men shoot and hunt, and women wear the furs and feathers of the victims, at the same time feeling horrified to see a few feathers on the porch, but admiring them on a hat."

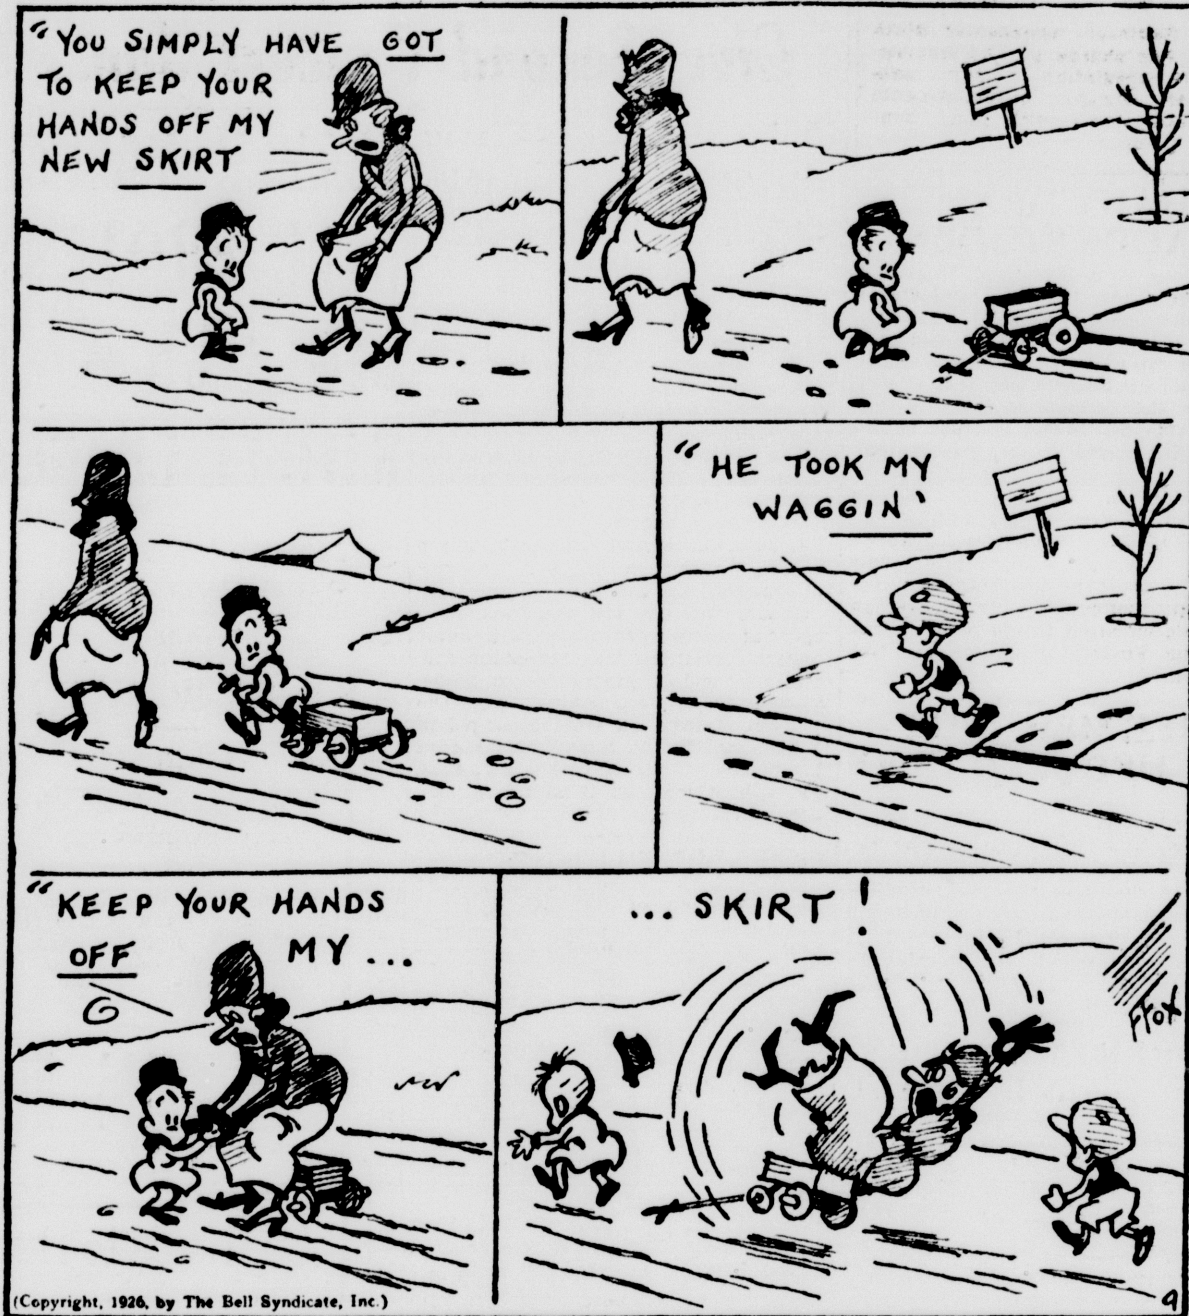

This doesn't condone the house cat's depredations on song bird life, but it does suggest that while seeking to protect birds from cats it would be well at the same time to protect them better from men and women.

It is announced that "a possible bride has been found at last for the Prince of Wales," a girl "very popular with the king and queen." So the poor prince will probably go right out and get thrown off a horse again.

Sure, there's always room at the top of the ladder. And just as you reach for the top rung, somebody generally jerks out the bottom.

Government in France seems to be a game of "Tag—you're it!"

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Jan. 9 — The gentlemen who conduct the speakeasy parlors in and on the fringe of the Tenderloin are not always able to keep so far ahead of the game financially as might be supposed by their rather opulent manner.

They suffer heavy losses from sour checks. And there is nothing they can do about it. If they sue they face a questioning as to just what they sold. When a patron has been generous in his patronage it is difficult to refuse to cash a check when funds run low.

Too, an angry patron may become a snitch. A half dozen blind pigs have been forced to close on account of rubber checks. The rubber check is the kind that bounces back from the bank tattooed with an "N. S. P." They are the chief cause for the high price of illicit hooch.

The proprietors not only lose the cash advanced but future patronage. There is the tale of one man who decided to have a final fling before mounting the water wagon. It was a hectic ten days, at the end of which he landed in a barred room of a Central Park West sanatorium.

And speakeasies held worthless checks for \$10,000. "I'll be afraid to go back into any of them again," said the culprit. Nearly all supper clubs have bold announcements over the cashiers' cages: "We do not cash checks." They have also suffered heavy losses.

It is, of course, a case of gypsters being gyped, but one speakeasy man decided not to succumb without a fight. He sued a prominent playwright for a large sum after the latter had acted as host for a gay soiree lasting several days and then protested the check.

Strangers have difficulty in understanding the various shades of New York's patios. The Bronx has its queer pronunciation, as well as Brooklyn, and, of course, the lingo of the Bowery is not understandable to many.

At old Tony Pastor's a comedian used to recite a poem which he said was especially for the Brooklynites. It ran:

Little Gioty Molphy, she soitenly is a bold,
She lives on Thoitly-Second street right next to Thoitly-Thold.
She reads the Evening Joinal and she reads the Evening Woild—
I soitenly do love Gioty when her doity hair is coiled.

Personality often overshadows slight physical deformities. In a Broadway play one of the leading players was a hunchback. He was such a finished actor that his deformity was soon forgotten and he carried away high honors.

On the Stock Exchange floor visitors often inquire why many of the hurried men wear white carnations. It is a phase of superstition which many themselves cannot explain. The white carnation is considered an emblem of good luck. No place on Manhattan Island breeds so much superstition as Wall Street. Scores of men carry rabbit feet, lucky charms, etc., daily to ward off disaster.

I have yet to find a man who plays for high stakes who is not touched by some absurd superstition. Race track followers are invariably influenced by what they call "hunches." Big numbers are the most constant patrons of Fortune Telling Row. Theatrical producers who risk fortunes in histrionic gambles have a hundred or more ridiculous superstitions which they never think of disregarding.

HASKIN'S LETTER

By FREDERIC J. HASKIN

Fighting for Temperance.

WASHINGTON, Jan. 9. — Washington's birthday, February 22, will be featured this year by a conference in the nation's capital that has for its object the promotion of temperance in the United States. In view of the fact that the country now has prohibition by constitutional amendment and the Volstead Law to enforce it, it may appear somewhat extraordinary when it is known that the conference has been arranged by and will be held under the auspices of the Association Against the Prohibition Amendment.

This organization announces, however, that it has formed a committee of leading American scientists and economists which, after exhaustive study and observation of the alcoholic beverage situation both in this country and abroad, is to draft and submit to congress and to the public "constructive plans for workable liquor control systems, with the object in view of finding a method to bring about the greater degree of real temperance in the United States."

It is not expected that this committee will be prepared to report at next month's conference, but a preliminary presentation of the problem will be made for discussion by the national gathering of a thousand or more leaders in the movement.

Through this discussion plans will be formulated for the legislative and political activities of the organization which has for its object, first, the repeal or modification of the Volstead Law, and ultimately, the repeal of the Eighteenth Amendment.

"The prohibition experiment has been tried and has miserably failed," says William H. Stayton, the national chairman of the association. "There is everywhere an outcry against the crime and corruption which accompany Volsteadism. Everywhere, too, men and women who have hopelessly or even approvingly watched the experiment admit the failure. The public press, particularly in its editorial columns, emphasizes the need for a change. The people grow under burdensome taxes. Our plans guarantee them relief. Canada makes an impressive demonstration. Altogether, it is evident that we can in 1926 elect a congress favorable to the modification of the Volstead Law, provided we receive adequate support from those citizens who realize the need and the wisdom of this."

Victory in 1926 Drive.

The national headquarters of the association has announced a "Victory in 1926" drive for members and votes which it believes will result in victory in the congressional elections next November.

"New departments have been added to our organization," says the announcement. "Congressional districts of vulnerable drys are being surveyed, and alliances are being made with political groups in the various localities. A field force of trained campaign men and women is being built up. A speakers' bureau is being organized. Information and statistics relating to prohibition are being compiled for submission to congress and the general public. New membership drives are being inaugurated; new state divisions are being organized."

Officers of the association are quite frank about their program for the approaching congressional campaign. Having compiled complete information about all of the 435 congressional districts a board of strategy will consider the situation in each district. If the board finds that a district is satisfactorily wet, neither time nor money will be spent there, and the same hands-off policy will be pursued with respect to districts that are hopelessly dry. But, where the board sees a fair fighting chance, where there is enough wet sentiment to warrant a belief that a dry congressman can be superseded by a wet one, campaigns will be made both prior to the primaries and at the general elections.

No candidates will be approved who are not the kind of men who ought to be in the national legislature, according to Secretary G. C. Hinckley, of the association. No man can win the organization's support simply because he is wet. He must have other sterling qualifications, as well.

"The prohibitionists have persistently tried to foster the belief that the old liquor interests are backing this association," continued Mr. Hinckley. "Nothing could be further from the truth. The association has a rule that men who previously made their money as brewers, distillers, or dispensers of liquor are not admitted to voting membership. We have done this in order to avoid creating the impression in the minds of the public that we are subsidized by the old liquor people or are working for their ends. What might be called the new moon-shiners—are, of course, against us because if our campaign to modify the present law is successful it will shut off the huge profits they are now making."

A membership rapidly approaching the three-quarters of a million mark is claimed for the association against the Prohibition Amendment. Most of these members pay less than ten dollars annually in the shape of dues and contributions. The total annual income of the association now approximates \$300,000, and detailed statements of receipts and expenditures are made a matter of public record so that there may be evidence that there is no indulgence in underhand or questionable tactics.

Large Membership Claimed.

The name of the organization is accounted for by the fact that it was formed immediately after the ratification of the Eighteenth Amendment and before the enactment of the Volstead Law. The association was incorporated under the laws of the District of Columbia in January, 1921, and the articles of incorporation declare "it shall be the purpose of the society to favor and encourage obedience to the Eighteenth Amendment and to all laws passed to carry into effect the provisions of that amendment, but the society purposes at the same time to conduct an educational campaign intended to convince the electorate that said amendment establishes in certain respects an unwise and dangerous precedent and that its repeal would be for the best interests of our country."

Conspicuous among members of congress who have identified themselves with the association are Senators Bayard, of Delaware, and Bruce of Maryland, and Representative HILL of Maryland. John W. Griggs, former attorney general of the United States, and George Von L. Meyer, former secretary of the navy, are among the prominent members.

A brief array of literary lights shed their reluctance on the movement, the membership list including such names as those of George Ade, Mrs. Gertrude Atherton, Rex Beach, Katherine Newlin Bart, Samuel Harden Church, Irvin Cobb, Meredith Nicholson, Chas. Scribner, Augustus Thomas and Owen Wister.

Well known women who lend their names include Mrs. August Belmont, Jr., Mrs. Minnie Madden Fiske, Mrs. Curtis Guild, Miss Elizabeth Marbury, Mrs. John Barry Mitchell, Miss Agnes Reppner, Mrs. Douglass Robinson, Mrs. Herbert L. Satterlee, and Mrs. Richard T. Wilson.

Some sixteen different bills bearing on prohibition and its enforcement have already been introduced at the present session of congress, but Secretary Hinckley says that as yet none have been singled out to receive the association's active backing.

BLIZZARD STRIKES HOME

Coughs and colds are a natural sequence to an unexpected blizzard, and should be treated promptly to effect complications. Foley's Honey and Tar Compound is a pleasant and effective remedy for coughs and colds. Keep a bottle on hand for any emergency. "The children and I had colds and the first dose of Foley's Honey and Tar helped us right away," writes Mrs. Mather, Richmond, Ohio. "Foley's Honey and Tar is a good cough remedy for the whole family. It contains no opiates. Sold everywhere."

SKIN COVERED WITH PIMPLES

Affected Neck, Arms and Limbs. Cuticura Heals.

"My skin began to grow rough and dry. It itched and burned causing me to scratch, and the scratching and rubbing caused eruptions. My skin became covered with small, red pimples that affected my neck, arms and limbs. I was unable to do my housework, and the irritation kept me awake for hours at a time. "I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it I purchased two cakes of Cuticura Soap and two boxes of Cuticura Ointment which healed me." (Signed) Miss Hilma Tuivonen, R. 1, Box 78, Angora, Minn. Use Cuticura for all toilet purposes. Soap 25c. Ointment 25c. and 50c. Tubes 25c. Sold every where. Sample, etc., free. PROPERTY VALUES GAIN IN STATE

Property in West Virginia in 1925 had an assessed valuation for taxation purposes of \$2,133,491,140. Compared with the figures of the previous year, the gain was a scant one-half of one per cent.

Compilations made in the tax commissioner's office and based on reports from all 55 counties show the foregoing total includes these valuations: Realty, \$1,246,484,692; personalty, \$426,978,072; public utilities, \$461,027,476. There was a gain in realty valuation over 1924 of \$10,000,000, in round numbers. Personally showed a loss of \$5,000,000, which was offset by a gain in the valuation of public utilities.

Hunting License Receipts. Receipts from hunting licenses issued last year just compiled by state officials show a large increase over that of previous years. Accidents were held down to the minimum with fewer reported than for several years.

Civic Music Society Will Give Second Concert Jan. 21

Philip Manuel and Gavin Williamson, Pianists, and Miss Jessie I. Christian, Prima Donna Soprano, on Program.

Second number of the 1925-26 course of the Civic Music association will be presented in the Ceramic theatre, Thursday evening, January 21, it was announced today.

The program will be offered by Philip Manuel and Gavin Williamson, pianists, assisted by Miss Jessie I. Christian, prima donna soprano. Seat reservations will be made at the theatre box office Monday, January 18, commencing at 9 a. m.

Messrs. Manuel and Williamson are regarded as two of America's premier concert pianists. The two-piano repertoire is widely diversified in scope. Whether they are reproducing the graceful string and flute passages of Mozart or the fantastic capering of the bassoon in a Debussy cakewalk, they are entirely at ease and in complete mastery of their instruments. The two-piano concert recitals of Manuel and Williamson produce the effect of the veritable pianistic orchestra. Although of singular unity in their musical conceptions, still these young men are definitely individual in their artistry. In building their programs, they have chosen from the literature for pianos the most beautiful and entertaining compositions written.

Miss Christian, formerly with the Chicago Opera association, is an American singer who has achieved notable success abroad as well as in her native land. Her first European appearance was at Bordeaux, France, where as first soprano she was engaged to sing in 18 roles. In Paris, her engagement led her to singing at special performances.

She is often called the "Cinderella of the opera" because of her last-minute calls to fill the place of a prima donna suddenly indisposed. With only an hour's notice she substituted for Galli-Curci in Chicago and sang the coloratura role of "Les Huguenots," with phenomenal success.

There is no parallel in our entire experience—or in all the 17 years of Paige and Jewett success—to the keen and universal interest shown in The New-Day Jewett Six!

Already this car has been viewed by a greater number, we believe, than have attended the introductory showing of any automobile. Throughout the country, many thousands purchased New-Day Jewetts during the first two weeks—more actual sales, we believe, than have ever been made in a like period on a new car.

Such interest is natural, for The New-Day Jewett is a most unusual new car. It is truly a new-day automobile—designed for today's motoring needs and admirably fitted to meet them.

To gain full appreciation of the remarkable results fine Paige engineering has attained in new-day driving ease and brilliant performance, you must not only see this beautiful Jewett, but ride in and drive it. If you have not yet been able to do this, delay no longer!

NAVY TO QUIT RIGID AIRSHIP EXPERIMENTS

Shenandoah Disaster Among Arguments of Opponents.

WILBUR SILENT

Uncle Sam Will Leave Development to Commercial Airmen.

By WILBUR MORSE, JR.

WASHINGTON, Jan. 9.—The navy is to discontinue its elaborate experiments with big rigid airships and leave the development of the dirigible to commercial airmen, it was learned today.

The Shenandoah disaster, with its appalling loss of life and property, the military limitations of its sister ship, the Los Angeles, and the questionable value of the great slow moving Zepelins as an arm of the fleet, are said to be the arguments forwarded by opponents of the airship.

Neither the navy department's recommendations nor the bureau of the budget's estimate for this branch of the service have been made public as yet. But it was learned upon authority today that both the budget and the navy appropriations bill, in its present form, virtually ignore the enthusiastic urgings by advocates of naval dirigibles.

And neither the budget estimate nor the nearly completed supply bill for

the navy provides for the two new rigid airships which naval airmen had been hopeful would be built to replace the Shenandoah.

May Deflate Los Angeles.

On the contrary, it was said today by a high government official that there was a strong possibility that debate in the house over the forthcoming appropriations bill would bring a strong demand for the deflation of the Los Angeles and the reduction of the Lakehurst naval air station to a skeleton guard for the giant birdhouse there.

Should this be done the day of the dirigible in the navy may be over for many years.

Opponents of the navy's developing this type of vessel today pointed out that since private corporations are now building and operating rigid airships the necessity of the navy using government money to continue experimenting in the new art is obviated. The tremendous cost of helium, with which the rigid airships of the Los Angeles and Shenandoah type are inflated, was also cited as an argument against continuing operation of the big airships.

Expect Sentimental Demand.

"Undoubtedly there will be a great deal of debate in congress on this question," said one congressman closely associated with the present program of the navy's air service.

"There will likely be a sentimental demand to keep the rigid airship because men like Commander Zachary Lansdowne gave their lives to develop it and their sacrifices would be in vain if the work was not carried on," he said.

"Such sentimentality will not hold much water, however, since it is evident that the development of the dirigible is to continue. Moreover, there are other sentimentalists who will cry against risking any more officers like Lansdowne."

Secretary Wilbur and the navy department in general are of the opinion that the funds of the navy must be allocated in such a way as to give the faster, more effective heavier than aircraft preference over the lighter-than-air.

"With that in mind it would be safe to assume that the part the rigid airship will play in the next year's program of the navy will be relatively slight."

Secretary Wilbur has religiously refused to disclose what his recommendations on the subject have been.

REPORTS FROM STOCK MARKET

NEW YORK, Jan. 9.—Stocks of the California oil companies, the motor and public utility companies were the leaders in a moderate advance of prices in the stock market today.

Reports of sensational developments in western and mid-continent petroleum companies, of which official confirmation is still lacking, focused the attention of a large number of traders on the oil stocks, with Pacific Associated, Marland and General Petroleum the most active in this group.

Associated Oil company's stock will be distributed to the stockholders of Pacific Oil company of record Jan. 26, and the future control and operation of the company is a live topic in speculative circles here. The stock was in active demand around 51, against the season's low at 32, while General Petroleum rose two points to above 59 and Pacific Oil sold up a point at 78.

The Pan-American continued to move downward.

General Electric sold up eight points to a record high at 34 1/2 on reports that the directors contemplated another important distribution of cash or stock to the stockholders of the company.

Death Dance Big Feature of "Gorgeous Stuff" at Strand

Do you believe in death? Do you believe in a death dance? Imagine a beautiful girl perished in the throes of death coming to life through the charms of music, and the entrancing dance of death by a skeleton. This is only one of the 17 scenes that will be unfolded during the presentation of the musical comedy, "Gorgeous Stuff," which opens a week's engagement at the Strand theater, starting Monday matinee.

Declared to be a miniature "Follies" and heralded by theatrical critics as the crowning triumph of all recent popular priced musical comedy, "Gorgeous Stuff," with its 60-foot baggage car filled to the brim with intricate stage mechanism, elaborate scenery, beautiful costumes will bring to East Liverpool one of the most pleasing musical comedies to play here at popular prices.

The costumes and scenery alone cost \$25,000.

SUNDAY SCHOOL NIGHT SERVICE

"Character" is Rev. W. A. Knapp's Sermon Topic.

"Character" was the topic of the sermon given by Rev. W. A. Knapp, evangelist, of Westerville, at the First Methodist Protestant church, last evening. "Sunday School Night" was observed, with a good representation of Sunday school teachers and scholars in attendance.

During the song service, Russell E. Kaufman, Dayton evangelistic singer, and Rowland T. Kaufman, of this city, sang "The Old Rugged Cross." The former also sang Rev. Mr. Knapp's favorite Gospel solo, "Jesus is Dearest Than All."

Rev. Knapp, taking his text from Matthew 3:17, "This is My Beloved Son, in Whom I Am Well Pleased," said in part:

"We have here God's ideal of character. We all want to go to heaven when we get through this brief journey here. Since there is a glorious heaven to gain and an awful hell to shun, we should live such lives as will please God. Would the Lord put His mark on your character?"

"You can never be Christ, but you can be more Christlike in character. Holiness is not assuming a 'holier than thou' attitude. I'd rather be afraid of sin than to be afraid of holiness of the Bible kind. That isn't the kind that has to be kept in hot-house to be kept blooming. Jesus was a man among men, a virile, red blooded man, who mingled with humanity. He bore the test of contact because of His inner spiritual life."

DEATH ROLL

Mrs. Ida Smith.

Mrs. Ida Smith, 60 years old, wife of William Smith, Leetonia, died last evening in the Salem Clinic hospital following an operation.

Deceased, who was a daughter of the late Mr. and Mrs. W. Wilderson, was born near Leetonia and lived her entire life in that section.

In addition to her husband she is survived by one son, Raymond, Leetonia, and one daughter, Mrs. E. K. Hall, Youngstown; two brothers, C. G. Wilderson, Leetonia; Edward Wilderson, Struthers, and one sister, Mrs. Albert Harold, Columbiana.

Funeral services will be held at 2 o'clock Monday afternoon in the home in Pearl street. Rev. H. C. Brillhart, pastor of St. Paul's Lutheran church, will have charge. Burial will be made in Oakland cemetery, Leetonia.

Joseph J. Crawford.

Joseph J. Crawford, 4 months-old son of Mr. and Mrs. J. T. Crawford, died yesterday in the home at Crawford's corner on the Lincoln highway.

Private funeral services will be held in the home at 10 o'clock Monday morning. Rev. C. J. Rank, pastor of the Madison Presbyterian church, will have charge. Burial will be made in Riverview cemetery.

The body can be viewed Sunday afternoon and evening.

Drive For City Building

lot on Sixth street for \$55,000; playground lot, Second and Washington street, for \$8,000; old West End fire station, which has been abandoned, for \$5,000; Huston avenue pump station for \$3,500; River road pump station site for \$500; lots at Pennsylvania avenue and Boyce street for \$1,500; lot on St. George street for \$500; and five lots in Huston avenue for \$2,000, which would make a total of \$166,002.51.

Real Estate Interest Losses.

The city now is paying \$2,250 per year in rents. Three per cent is being lost in interest on the market house funds which adds another \$1,140 per year, or a total of \$3,390. This, Kerr declared, would meet interest charges on \$68,000 worth of bonded indebtedness, which if issued, would make \$234,602 available for the proposed building.

"The city is badly in need of a municipal building," the communication said. "This plan could be accomplished by adding very little more bonded indebtedness than we now have. I realize that the city must practice economy, but by the figures which I have herewith submitted you can readily see what can be done if we put our shoulder to the wheel and help it across."

"Let council place its cards on the table face up and give the people the true facts in the case and they will support a city building at this time. Let's get busy and move on town."

Asks Assessment Reduction.

Councilman-at-large Charles Hayes, who is now serving his third term in council, was elected president of the city by the voters. G. Arthur Shone was re-elected clerk.

R. G. Boyd, Liverpool township dairyman, asked council for a reduction of street improvement assessment on a piece of property located on St. George street, which he recently sold. Boyd declared that the lot had been appraised at \$1,000 and that the improvement assessment totaled \$447.

The law permits an assessment of only one-third of the valuation. His complaint was turned over to the claims committee for investigation.

Michael Pease, Foster street, requested council to halt the county's closing of Foster street, which leads off West Eighth street. It was told that council had already notified the commissioners that this street must be kept open.

Firemen and others from the municipal water works department appeared before council asking for an increase in wages. Firemen are now being paid \$4.50 per day, while others receive \$4. The amount of the increase was not suggested, but the request was for a "living wage."

The rules committee reported favorably on the rules used by the last council. With a change in the second night, which will be the second and fourth Thursday of each month, the report was approved.

Nine Killed in Storms

(Continued from Page One)

morning practically all improved highways had been covered, but the scrapers will not be withdrawn until the snow ceases falling. The work is being directed by State Highway Engineer J. H. Kitter, assisted by County Engineer Lloyd Kirk. The scrapers encountered trouble in breaking through many of the deep drifts.

Street Commissioner Oliver Buzzard and his force today are engaged in removing the snow from the business district. The gutters are being opened to permit drainage in case of thaws or rain. Ashes are also being scattered at the foot of the hillside streets as a protection for coasters, who were out by the hundreds today.

Automobiles were operated under difficulty last night.

Traffic Delays in Cleveland.

CLEVELAND, Jan. 9.—Blanketed under its second heavy snowfall of the season, all Ohio today was reporting delays in traffic and wire communication as a result of the storm which began late yesterday and continued uninterruptedly throughout the night. Snow was still falling in Cleveland today, and the official forecast was that more than six inches of snow would cover the ground.

In Steubenville, C. W. Walker, 55, of Cadiz, was killed when his auto skidded in the snow and crashed against a telephone pole. Two women were injured in Cleveland, when they were struck by autos, while a third suffered a broken wrist when she slipped and fell in the street.

At Youngstown the snowfall was the heaviest of the year.

COLUMBUS, Jan. 9.—A mantle of snow varying from three to four inches thick, covered all of Central Ohio this morning. The local U. S. weather forecaster predicted more snow and slowly rising temperature for today.

ZANESVILLE, Jan. 9.—Both the Lick and Muskingum valleys are covered with snow to a depth of from four to twelve inches—the latter depth being along country roads where the snow has drifted. Snow here is six inches deep and it is still snowing.

MARION, O., Jan. 9.—Interurban and local street railway traffic was seriously impeded today by the winter's heaviest snowfall. More than seven inches fell, according to Weather Observer E. H. Raffensperger.

Auto-Interurban Car Collision.

TOLEDO, Jan. 9.—Blinded by the heavy snow fall, four persons were dead at Newport, Mich., near here, today, having been instantly killed last night when the auto in which they were riding was struck by a Detroit-Cleveland interurban car at a grade crossing.

The dead, brother, sister and two cousins, are:

Leroy Chenevare, 18.

Irene Chenevare, 15, his sister.

Edwin Chenevare, 18, cousin.

Gertrude Duval, 17, a cousin.

Western Pennsylvania Blanketed.

PITTSBURGH, Jan. 9.—With a depth of five and a half inches reported at 8 a. m., Pittsburgh led western Pennsylvania in snowfall today, according to weather bureau reports.

The snow was still falling during the morning with no prospect of a let-up.

Street car and automobile traffic in the city is badly congested in places. At Wheeling, W. Va., a snowfall of six inches was reported.

No special suffering or fatalities because of the cold weather had been reported.

Two Injured in Washington.

WASHINGTON, Jan. 9.—A three-inch blanket of snow covered the national capital today, and grew thicker as the day advanced.

Snow fell steadily during the night and was responsible for many motor accidents, and delayed traffic.

Among the casualties was Salvatore Manzi, who was run down by an automobile carrying Joe Judge and Dutch Reuther, Washington baseball players. He was taken to the hospital with a possible fractured skull.

BALTIMORE, Jan. 9.—Maryland was covered with a three-inch fall of snow during the night.

Four Killed in Crash.

NEW YORK, Jan. 9.—Three men met death, another died soon afterwards and a fifth man was severely hurt early today when their automobile skidded in the snow on a sharp turn and struck a telegraph pole in Concord, Staten Island. The three men killed were Francis J. Collins, Owen Fagin and James J. Conroy, all of Staten Island. Thomas Hayden, 33, of Brooklyn, died within an hour after the accident.

The only survivor was Eugene Merrill, 20, of Staten Island, who is said to have been the driver. He is charged with homicide.

It was evident the car, a sedan, was going swiftly at the time of the crash. The machine was reduced to a twisted mass of wreckage. The victims were catapulted through the glass windows of the machine by the impact.

Twenty-Five Flee Fire.

FITCHBURG, Mass., Jan. 9.—The Majestic theater, the big store of the Miller Clothing company and several small manufacturing plants were destroyed in a fire which did \$100,000 damage here today to the Dickinson building in the heart of the business district.

Twenty-five persons were driven adjoining the theater, and a furniture store on the other side of the theater was damaged by smoke and water.

Re-located firemen fought the blaze in near zero temperature with a howling snow storm sweeping the city.

BALTIMORE, Md., Jan. 9.—Damage caused by a fire which swept the American Skirt and Coat company plant here early today, in which eight firemen were injured, amounted to \$100,000, it was estimated today. Five alarms were sounded before the blaze was brought under control.

None of the injured firemen are in a serious condition today, it was reported.

Twelve Injured in Madrid Wreck.

MADRID, Jan. 9.—Twelve persons were injured today when a subway train jumped its tracks.

EAST END "SIN" IS TOPIC OF EVANGELIST

Large Audience Hears Rev. Lincicome Speak in Oakland Church.

Another large crowd attended services last night in the Oakland Free Methodist church when Evangelist Forman Lincicome spoke on "Sin."

He spoke, in part, as follows: "Sin is covetous. Covetousness is at the bottom of all our world troubles. Take covetousness out and you will take all the strikes out, all the class hatred out, all the liquor traffic out, and all the trouble that exists between capital and labor."

"Men used to pray, 'Give us this day our daily bread,' but now one man says give me all the wheat, another wants all the oil, another all the timber, while another wants all the coal."

"Sin knocked Adam and Eve over the embankment 6,000 years ago and ever since has been in the knocking down business. Some modern divines are telling us that man didn't fall down, that he fell up. You couldn't make a bank president in all the state of Ohio believe it."

"The devil knocked Adam and Eve down. Some people tell me they don't believe in a personal devil, but as long as I see so much devilry around I am bound to believe there is a devil. Some tell me the devil is chained—well if he is I hope God will let me get out of East Liverpool before he gets loose. I tell you the old boy is not chained but is loose right here in this city."

Two services will be held tomorrow.

Switzer Funeral.

Funeral services were held this afternoon for Mrs. Caroline Switzer, 81 years old, in the home of her daughter, Mrs. Ira White, 1701 Pennsylvania avenue. Rev. John Douglass, pastor of the Oakland Free Methodist church, was in charge. Burial was made in Riverview cemetery.

Choir Members Meet.

Members of the choir of the Pennsylvania Avenue Methodist Episcopal church met last evening. The session was attended by the pastor, Rev. W. C. Stokes. Revival services will open in the church in near future.

To Assist in Drive.

Members of the local Boy Scout troop will take part in the campaign to finance the activities of the Columbiana County Council which will be staged on Wednesday, January 27.

Revival Continues.

Rev. B. H. Johnson, pastor of the First Church of Christ, spoke last evening at the revival services in the Pennsylvania Avenue Church of Christ. His topic was "A Mother's Heart." He will preach at the services tomorrow.

The government, from Federal Judge E. S. Thomas, has secured a judgment for \$1,000,000 against Gerald Chapman, plus 6 per cent interest, for bonds stolen by Chapman in a big mail robbery. That judgment should be classed as a "live asset," with Russian bonds that baby American financiers bought from the czar, just as he was starting on the toboggan.

Chapman will be hanged in March, for murder. The czar went long ago, also for murder.

Mayor and Cabinet Member Hosts to Fellow Officials

Executive and Service-Safety Director-Designate Urge Harmony and Review Municipal Problems at Dinner.

Members of city council and administration heads of the municipal government were guests of Mayor Ralph C. Benedum and Service Safety Director-designate John W. Moore at a 6 o'clock dinner in the Larkins annex, Market street, last evening.

The affair, a get-acquainted meeting, was arranged for the purpose of briefly discussing some of the questions which will face the city during the next two years. Mayor Benedum, who presided, appealed for harmony.

Mr. Moore, who assumes the directorship on January 15, said that the city owed between \$15,000 and \$20,000 for street improvements completed last year. He suggested that bonds be issued to pay this bill so that council may begin its work this year with a clean slate. He also urged the grading of the city's section of the Youngstown-East Liverpool road, using the

county's steam shovel. This work would require an expenditure of about \$6,000, whereas it would cost twice that figure if done by contract.

J. T. Croxall, township trustee, suggested the improvement of the California Hollow road which is a part of the new highway to Youngstown.

Other speakers were: President of Council N. P. Kerr, and Councilmen Charles Hayes and Thomas Farrall, senior members of the legislative body.

Middletown Calls Upon Police Chief For Resignation

MIDDLETOWN, O., Jan. 9.—George Williams, chief of police here, was formally requested to tender his resignation when the city commission met in regular session last night.

No charges were filed, the board merely describing police conditions "deplorable" because of a lack of harmony among the men and declaring Williams "not big enough" for the job.

Williams asked a week to consider the matter.

City's Second Oldest Resident Dies On Eve of 93rd Birthday

JAMES W. LOVE, Civil War Veteran and Retired Pennsylvania Railroad Worker, Succumbs in Hospital.

James W. Love, 340 Eighteenth street, Civil war veteran, retired Pennsylvania railroad employe, and Wellsville's second oldest resident, died last night at 6 o'clock in the East Liverpool hospital following a several weeks' illness of complications.

He would have been 93 years old today had he lived.

He was born in Mercer county, Pa. on Jan. 9, 1834. He was the oldest retired veteran of the Panhandle division of the Pennsylvania railroad, his name having been placed on the honor roll on May 1, 1901.

During the Civil war he served with valor as a member of the 17th Ohio Volunteer Infantry. Prior to joining the service he worked as a brakeman and bridge carpenter on the C. & P. division of the Pennsy.

After the close of the war, Mr. Love returned to the C. & P. as a bridge carpenter, but left again in 1886 and for the following four years was chief of police of Wellsville.

On November 8, 1870, he became a detective on the Panhandle division of the Pennsylvania and worked in that capacity until he was retired.

His wife died in 1908.

He is survived by a daughter, Lola, at home; a son, William; one grand-daughter and two great grand children.

He was a member of Henry Cope post, G. A. R., the Panhandle Division Veterans' association and the Second Presbyterian church, of Wellsville.

Funeral services will be held Monday afternoon at 2 o'clock at the late home, in charge of Rev. Thomas Berger, pastor of the Second Presbyterian church. Interment will be made in Spring Hill cemetery.

The body may be viewed this evening and any time Sunday at the D. N. MacLean chapel, Riverside avenue. Monday morning the body will be removed to the residence where it may be viewed up until the time of services.

MOORE FUNERAL HERE SUNDAY

Funeral services for Mrs. Harry Moore, of Cleveland, who died yesterday morning, will be held Sunday afternoon at 2 o'clock at the home of Mrs. Al Moore, a sister-in-law, in Tenth street. Burial will be made in Spring Hill cemetery.

Mr. and Mrs. Moore were former residents of Wellsville. Mr. Moore is an ex-Wellsville mayor.

Besides her husband, she is survived by four children, Mrs. William Drury, Milwaukee; Joseph, of Iowa; Mrs. Edward Anderson, Cleveland; and George, at home.

UNION SERVICES WELL ATTENDED

Union prayer services arranged by the Wellsville Ministerial association which have been held nightly in the various churches of the city, have been held nightly in the various churches of the city, have been marked by large attendances.

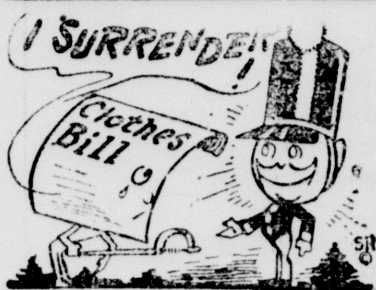

The closing meeting of the services were held last evening in the First Methodist Episcopal church, with the pastor, Rev. W. S. Rowe, presiding. The sermon was delivered by Rev. F. H. Magill, pastor of the First Presbyterian church who discussed the subject, "Families, Schools, Colleges and the Young."

Ask the Question, Answer is Found In World Almanac

The World Almanac for 1926 was published with the New Year. For forty years this standard ready reference annual has been indispensable, and never more welcomed than today. It deserves a place on every desk—in the office, in the factory, in the school and college, on the farm and in the home. Where else can one find so readily the up-to-date answers to all the questions of the day?

It puts a millions facts within arm's reach. In its 900 pages of small but clear type are compressed the history of the United States and of the whole world. The history made in 1925 is there. The facts and statistics are from authoritative sources, well digested, well arranged.

How has the Dawes plan worked? Gilbert's report is there. The Locarno Treaties? In full. The new tax bill before congress. All the essential points and figures. Exempt bonds? It tells how the states and cities spent the money they got from them. What have we really for an air force? Read the report of the Morrow committee. How is the enforcement of the prohibition law getting on? That also is told. And all this information is readily accessible—consult the twenty-one pages of the index. When did so-and-so happen? If in 1925, the diary of events begins on Page 91 and runs to Page 118, with six pages of deaths four of great benefactions and seven of scientific progress following; records of all sports as usual.

The World Almanac has always been an invaluable handbook of American politics. Each one has the latest election returns from all the states, and

this year it carries as well a political history giving every presidential campaign.

It is a mine of information for every man. The World Almanac is published by the New York World. Price 60 cents post paid. Readers who keep it year by year on their bookshelves find \$1.10 a small price for the cloth-bound copies.

Arrived

The New-Day Jewett

THE new-day car is here—and it's a Jewett. It is the answer of one of the automotive industry's oldest, strongest and most successful organizations to today's vital motoring needs and problems.

No surface comparison can adequately gauge this car's worth. Measure it instead against the situations and emergencies of driving.

Begin, if you like, with the severest test of all—take The New-Day Jewett into close-packed city traffic.

Dart in and out—shoot swiftly ahead of the jam—stop with soft smoothness—park in spaces you would have thought impossibly small!

Realization will come quickly—that here is a car, marvelously responsive to your touch, which takes instant advantage of

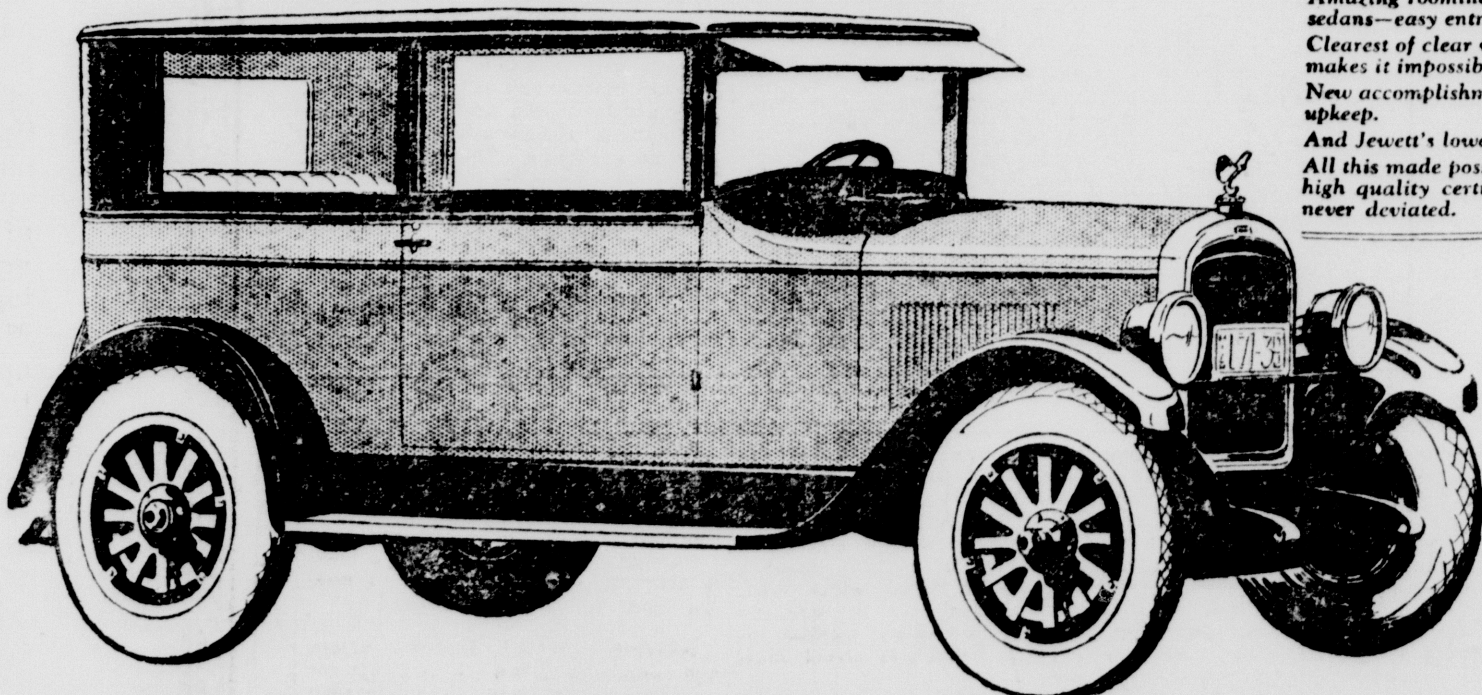

every opening, gets you through streets that seem impenetrable, lets you come and go as you please where ordinarily you would never try to drive. A New-Day Car For New-Day Needs.

Then leave the crowded streets and seek unfrequented country roads where The New-Day Jewett will reveal a quality of performance which not even preceding Jewetts, acknowledged masters of the open road, can surpass.

After years of preparation, The New-Day Jewett is here—ready for you to see it and drive it.

Let nothing prevent your seeing this epochal new-day car without delay! And do not stop with a casual inspection, for the better you learn to know this car the more you will appreciate its unusualness—its right to be known as "The New-Day Car For New-Day Needs."

LOCAL PASSERS DROP TWO GAMES

Meeting their first scholastic opposition of the season, Wellsville high school cagers last night were defeated by the Red and Black quint, at Salem, 29 to 9.

The Orange and Black lost both ends of the double bill on the north county court, the local girls losing a 25 to 17 decision in the preliminary.

The marksmanship and almost airtight guarding of the Salem team featured the engagement.

Coach Klince's quint tonight is scheduled to pry the lid off the home season with the Mingo Junction five furnishing the opposition.

The contest is slated to start at 8 o'clock. No girls' game has been carded.

YESTERDAY'S PUZZLE ANSWERED.

Help that lame, achy back!

ARE you dragging around, day after day, with a dull, unceasing backache? Are you lame in the morning, bothered with headaches, dizziness and urinary disorders? Feel tired, irritable and discouraged? These are common signs of kidney weakness. Don't risk neglect! Help your kidneys with Doan's Pills. Doan's have helped thousands. Are endorsed by home folks. Ask your neighbor!

Here's an East Liverpool Case:
John Grimm, foreman in pottery works, 1015 Ambrose Ave., says: "Sharp pains across my back were torture and I had all I could do to straighten after stooping. I often had such dizzy spells I couldn't see. My kidneys acted infrequently. Doan's Pills from Holloway's Drug Store cured me of the attack."

My! What a Pain!

It takes you right across the back! Sometimes in the arm, hip, or foot. Probably due to overabundance of that poison called uric acid. Happens when the kidneys become clogged, and are unable to filter the uric acid from the blood.

There's more of this trouble in winter, following a cold, or an attack of grip, which, like any other infectious germ disease, fills the blood with an extra load of poisons that overwork and break down the kidneys.

You may know the kidneys are weak when you have constant backache, dizzy spells, the twinges and pains of lumbago, rheumatism, or neuralgia, or when sleep is disturbed two or three times a night.

At the famous Invalids' Hotel, Buffalo, N. Y., (Dr. Pierce, Pres.) hundreds of such cases are treated every year, and the result was the discovery of "An-uric."

Drink plenty of water, preferably hot, before meals, followed by one of Dr. Pierce's "Anuric" (anti-uric acid) Tablets obtained in 55c bottles at any drug store. This treatment dissolves and flushes out the uric acid and helps to bring kidney action back to normal. If you want a trial package send 15c to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

To guard against the boll weevil, post, whereas shipments by other means are permitted only between November 1 and May 1.

L. H. COPELAND
FILES REPORT

Observer Reports Only
Five Clear Days in
December.

There were only five clear days during the month of December, it has been officially reported by L. H. Copeland, of Millport, co-operative weather observer for Columbiana county. There were eight fully cloudy days during the month and 18 partly cloudy days.

The maximum temperature for the month is placed at 34.3 and the mean minimum at 21.1, with a mean of 27.7 and a maximum of nine degrees below zero, which was recorded December 30, last.

Precipitation for December totaled but .56 of an inch and a snow fall of 4 inch. The normal temperature for December was 28.9 degrees, and the coldest temperature for any December since the first records were kept was 18 below zero and this was in 1917.

No extreme cold or hot weather prevailed during the old year. The rainfall during April, May and June was below normal, damaging hay, wheat and oats. October and November last year were noted for the frequent rains, causing the harvesting of corn to be delayed to a considerable extent.

The year of 1925 was about normal, so far as the fall of rain is concerned, also temperature. Owing to the fact there was very little snow on the ground during December last, probable damage has resulted to the spring wheat crop.

January in 1926 has a snowfall of about 16 inches, and July 10, last, there was a rainfall of 2.07 inches.

The greatest daily range of temperature last year was 47 degrees, which was registered March 24. June 5 last was the warmest day of the year, with 94 being registered.

Normal temperature of the last 30 years is placed at 48.3.

Clerk Draws Jurors
To Hear Testimony
In Delinquency Case

Twelve names have been drawn from the jury wheel by Clerk of Courts Frank Ballantine and Sheriff George Wright, which will constitute a jury to report to Judge Lodge Riddle and hear the testimony in the case of the state of Ohio against Mrs. Alta Miller, of Salem, charged with contributing to the delinquency of Gertrude Lottman.

The names of the jurors drawn are: Homer Twaddle, Alfred E. Stoddard, John E. Anderson, Maude McMurray and George C. McBane, all of East Liverpool; Allan Taylor, East Rochester; Carl Juergens and Rex Ruzey, Salem; Lulu Lange, Salineville; John Essick and Amanda Hass, Moultrie; J. A. McCord, Summitville.

The case has been set for trial January 15 in common pleas No. 2 with Judge Riddle presiding.

The defendant asked for a trial by jury when she appeared in court several days ago, and after entering a plea of not guilty.

THREE DIVORCE
CASES DROPPED

The divorce action filed in common pleas court June 29th last by Emillia Andrews against her husband John V. Andrews, has been dismissed from the record on the motion of the plaintiff, and at the costs of the plaintiff. The temporary restraining order previously granted in this case when it was first filed has been dissolved.

A similar entry has been made in the divorce case of Claude E. Conrad against her husband, Richard M. Conrad, the plaintiff filing the motion and the dismissal being at the costs of the plaintiff filing the motion and the dismissal being at the costs of the plaintiff.

In the case of Sylvia Showalter against her husband Howard Showalter, this action has also been dismissed from the record on the motion of the plaintiff, and at her costs.

Divorce Granted
A decree of divorce has been granted by Judge James G. Moore to Willa Black against her husband Russell Black, and she has been restored to her maiden name Willa Pennell. The decree was granted on the grounds of extreme cruelty.

Plan to Sell Manse.
An application has been filed in common pleas court by the trustees of the Middle Sandy Presbyterian church of Homeworth, seeking permission of the court to sell its present manse to Jesse Freshley. It is the intent of the congregation to build a new manse with the funds derived from the sale of the present parsonage.

Case Dismissed.
For lack of prosecution and failure to file a petition the case of Walter Mick against George Mort, Sr., which was carried to common pleas on appeal has been dismissed by Judge James G. Moore. In this action the original action which was tried in a lower court, was for the recovery of \$35 claimed due for work and labor.

Transcript Filed.
A transcript in the case of E. L. Grate against James Miles, a case heard in the court of former Justice of the Peace Maud E. Gill at East Liverpool has been filed in common pleas court, an appeal from the decision of the lower court having been taken by the defendant. In this case the plaintiff sought a judgment against the defendant for \$24.51 for work and labor. Judgment was rendered December 11 last.

the PEERLESS

6-80 Sedan \$1595

F. O. B. FACTORY

IN four short weeks this new Peerless has taken the world by storm. Everywhere it has been hailed as the world's greatest achievement in automobile building.

Nobody ever imagined that Peerless could produce a closed car for only \$1595.

Because Peerless standards are quality standards. Peerless methods are quality methods. Peerless materials are quality materials.

Car Value Unequalled

But Peerless did it in the 6-80 Sedan. And car-wise people everywhere instantly recognized this fine automobile as the country's premier car value.

From the start it has been inevitable that this should be Peerless's greatest success.

In the short time since its announcement the 6-80 has piled up a sales record never before approached by any Peerless.

A car with a 116 inch wheelbase—easy to handle—easy to steer—easy to ride in.

Yet, a car generous in room and comfortable as only Peerless can make it. Vibrationless speed upwards of 70 miles an hour. A motor made smooth as satin by a seven-bearing crankshaft and Lanchester dampener. Hydraulic 4-wheel brakes that respond to the lightest touch. Long, flexible springs. Balloon tires. Enough weight to make the roadability nothing less than perfect

Every Advantage

Imagine all these advantages combined in one car: Then imagine that car a Peerless selling for \$1595 and you'll realize why such a warm welcome greeted the 6-80 Sedan.

The Peerless dealer invites you to try out this newest Peerless to your heart's content. Test it any way you wish.

Lorah's Passers Register Victory In First County Clash

Trim East Palestine Quint By 41-24 Count

Blue and White Coach Uses Entire Second Team in Final Period After Regulars Cinch Contest; Visitors are Strongest in Initial Quarter.

COACH Lorah's East Liverpool high school basketballers broke the ice last night in the county conference 1926 campaign by winning decisively from the Brown and White of East Palestine on the local floor. The count was 41 to 24.

The contest was the first real scholastic clash of the season for the high school lads who had previously been defeated twice—once by Franklin and Marshall academy and again by a great Alumni team—and it demonstrated clearly and unquestionably that the Blue and White quint has the stuff to take care of itself against any ordinary school outfit.

The visitors were a potent fact in the game only during the first quarter. During the second period they began to lose ground and in the third and final cantos were so far outdistanced that their case was hopeless.

Lorah's proteges threw up a strong, almost impenetrable five-man defense that made the East Palestine cagers shoot from mid-floor or beyond. The field goals were the net result of the visitors' activities in this direction, six of which were made in the first half, when they were strongest.

In the third quarter East Palestine lost two forwards—Orndorff and Dolan, on personal fouls.

But at that, Coach Lorah sent an entirely new team, player by player, into the game in the third quarter until, with the period half over, none of the original five was on the floor. Elmer English, Helme Desdriek, Brozka, Allison and Wildblood all got a chance and they tell little short, if any at all, of maintaining the pace which stopped the north countians in the earlier periods.

The passing and team play of the whole local squad stood out prominently throughout the engagement. "Teke" Dough was a stumbling block to potential East Palestine scorers as he stopped try after try in scoring territory. It was seldom that the fellow failed to recover the ball. From his hands it went to Captain Paul English and the latter took it up the floor into the scoring zone where the Hamilton-Wilson trio were waiting. These three lads contributed a dazzling exhibition of passing among themselves which had the visitors hanging on the ropes. Hamilton failed to get his usual quota of baskets but Jimmy was very much in the game. He was a big factor in the transfer of the leather under the East Palestine basket which usually led to a field goal. An unobtrusive, deceptive floor man, Hamilton can slick 'em in with ease and accuracy but his shots were sticking on the edges or rolling around the rim of the hoop last night.

But Wilson counted enough for whatever his teammates may have missed. He dropped the ball through the netting eight times and contributed two fouls to the grand total. Tom Pussey registered four two-pointers and English three. The latter, by the way, had a perfect record from the foul line, with three good ones in as many attempts.

Lorah's quint lost three field goals within a minute or so in the first period because of out-of-bounds and other technical rulings that took off the count. East Palestine took off the honors in this quarter, leading by a score of 6 to 5. But their advantage was short lived. The second period was under way only a few minutes when the lead had shifted and after that it never changed.

Coffroth Race Richest Event

First Quotations in Winter Book Draw Interest.

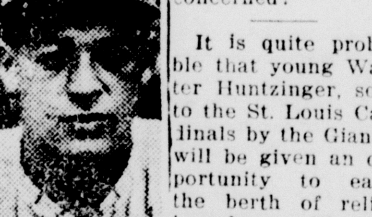

NEW YORK, Jan. 9. — Horsemen have taken no little interest in the first quotations of the Winter books on the Coffroth handicap, which will be run at Tia Juana on Sunday, March 23. This race at a mile and a quarter, will this year be the world's richest stake and will be worth about \$75,000 to the winner.

Osprey, Princess Doreen and Little Celt are the favorites at 10 to 1 each in the future book opened by J. P. Atkin at the Tia Juana course. Prices run from that odds to 300 to 1, with many a long shot to tempt the speculator. The fanciest stable's Mad Play, rated as the best of the handicappers in this country at this time, is held at 20 to 1, the price naturally being governed by his weight, he having been allotted top impost of 132 pounds.

Atkin announces that he will write any single ticket calling for \$250,000. One of the largest wagers to date in the Atkin book is that made by J. C. McGill, a former baseball magnate, who has put up \$700 on his horse Hourmore at 40 to 1. This ticket calls for \$28,000 if Hourmore should win. McGill deserted baseball for the turf a number of years ago and has built up a formidable stable. He will have four candidates for the Coffroth, the others being Flagstaff, Spic and Span and Dominique.

SPORTS DONE BROWN

President Baker of the Phillies is quoted as saying: "I will use Jack Bentley (recently acquired from the Giants) at first base most of the time." Does this, then, solve the problem as far as Manager Art Fletcher is concerned?

W. HUNTZINGER

It is quite probable that young Walter Huntzinger, sold to the St. Louis Cardinals by the Giants, will be given an opportunity to earn the berth of relief hurler with the western team. The big right-hander showed considerable ability in the pinch role with the Giants during his three seasons with the New York club.

Huntzinger, formerly a star of the University of Pennsylvania ball team, joined the Giants in 1923. He warmed the bench that season, but the following one he was thrown into "hopeless" games now and then, appearing in some 12 contests. He was charged with one victory and one defeat.

Last season he broke into 26 games, mostly as a relief hurler, and emerged with five victories credited to him and but one defeat registered against him.

Johnny Dundee, who won the featherweight title just before he took to his rocking chair and slippers, now announces that he plans to come out of retirement, stand his cane up in his corner, and fight Rocky Kansas, present holder of the New York model of the lightweight championship. If he does the promoter ought to match Methuselah and Rip Van Winkle for the semi-final.

Now the colleges plan to appeal to Commissioner Landis to prohibit baseball officials from offering professional baseball contracts to players in college. This request from the institution heads might be considered perfectly proper were they to broaden the request to include leaders in every other business. We see no greater crime in suggesting to an undergrad that he can earn an honest and remunerative living for a few years by playing baseball than in asking him to become a college coach, a broker's office boy or a tie salesman.

Official fielding averages, out recently, show that the seven other teams in the National League finished ahead of the Pittsburgh Pirates in fielding. And that's all the good it did them.

The initial efforts of Arnaud Massey and Arthur Compton, European golf stars now invading our fair country, would indicate that they are the most formidable pair to visit us since Ted Ray and Harry Vardon, in their prime, toured the United States. What a pair Ted and Harry made!

Denies Eddie Roush Is Going to New York

CINCINNATI—President Garry Hermann of the Cincinnati Reds yesterday issued an emphatic denial of the report that Eddie Roush will go to the New York Reds. He insisted Roush will play in the Reds' outfield next season.

Bethany Cagers Set For Opener

Clash With Easterday's Waynesburg Team.

BETHANY, W. Va., Jan. 9.—The Bisons open their basketball season with Waynesburg tonight. If the Bethany team can hit their stride as they have done in practice Waynesburg will hardly be considered dangerous.

In last year's encounter with the Yellow Jackets, the teams split a two-game series. Coach Easterday understands his opposition in the Bisons and will put his best combination on the floor to oppose them.

Coach Nuss is confident of Saturday's game with Waynesburg. The exact line-up of the Green team is uncertain but the logical men are Beckwith, Hamill, forwards, Carey and Hanna, guards, with Tinson as tip-off man. This combination showed power and strength in last night's practice.

With the opening of college Tuesday the Bison floor squad resumed practice and never before has the squad worked so well. The first string men outplayed the reserves in every phase of the game.

Beckwith, forward of the Bethany team, is in excellent shape after the vacation. In last night's workout he scored continuously and from every angle. Beckwith's floor work is fast as lightning and he is without a doubt the most dangerous forward in the Tri-State conference. Hamill, running mate for Beckwith, is an excellent choice for his position. Being by nature a port-sider, he is able to pass perfectly to any man who cuts for the basket. Hamill is an excellent shot and a good head on the floor.

OFFICERS NAMED BY RIFLE CLUB

The East Liverpool club of the National Rifle association held its regular business meeting and shoot last evening in the old power house quarters on the river road.

The high scorers were: Stewart, 50 out of 50; Culler, 49; Saling, 49; Rymer, 48; Buzzard, 47; Snowden, 47.

The following officers were named for the year: President, E. Culler; secretary-treasurer, W. A. Rymer; vice president, T. A. Snowden; range officer, H. Stewart.

The club meets each Friday evening at the power house building.

LISBON TEAMS NEXT FOR HIGH

County Seat Squads in Action Here Tonight

Lisbon here tonight and the Red and Black at Salem next Friday; that's the county schedule ahead Lorah's Blue and White following its 41 to 24 victory last night over East Palestine in the first scholastic tilt of the card here.

The Salem proposition, however, is not worrying the Potters at present. Their attention is directed to the game on the local floor tonight with Lisbon, a fast little team that is expected to give them plenty of trouble.

Both the boys' and the girls' teams will be in action—the boys with a second county conquest as their goal, and the girls with just simply a victory as their objective. The local lassies were defeated by East Palestine last night and will spare no efforts in their attempt tonight to break into the win column.

The county seat five will have three veterans in Forward Hum and Guards Cornell and Leigh. None of the team is large but shortcomings in this respect they make up in dexterity and skill as they did on the football field last fall.

The games are slated to start at 7:15 and 8:15, respectively.

LISBON SQUADS WIN DOUBLE BILL

Lisbon high school teams won both ends of a double header with Columbiana teams at Lisbon last night, although by short margins.

Lisbon girls copped the preliminary, 31 to 28, and the boys were victors in the main go, 28 to 24.

The county seat five ran away with Columbiana in the first half, the count being 20 to 8. The Lisbon regulars withdrew from the game and the second team took up the burden. But they failed to hit the pace set by the varsity and the visitors came within an ace of tying the score. With their lead slipping away, the regulars were sent back into the clash and managed to pull out with a four-point win.

The girls' game was close all the way.

Sweden will build a large broadcasting station at a cost of about \$280,000 in the central part of the country at a point which will have within a radius of 125 miles approximately 2,000,000 people.

ESPINOSA AND FRASER LEAD PRO GOLFERS

Make First Round of Los Angeles Open in 68.

By COPELAND C. BURG.

LOS ANGELES COUNTRY CLUB, Los Angeles, Jan. 9.—Al Espinosa, Spanish gentleman from Chicago, and Chick Fraser, pro at the Midwick club, Los Angeles, led the pack today when the 335 golfers started play in the final 18 qualifying rounds of the ancient game's biggest purse event—the \$10,000 Los Angeles open.

Shooting brilliant golf, Fraser and Espinosa finished the first 18 rounds with 68, two strokes under par.

Hot on their heels, just as they were in the opening 18 holes, were Harry Cooper, Dallas; Joe Kirkwood, New York, and Frank Walsh, Appleton, Wis., each with initial scores of 70.

MacDonald Smith, New Yorker, favorite to win the event, was trailing with the 72, along with Bill Melhorn, Chicago; George Von Elm, Chicago amateur champion, and Dewey Weber, Chicago, while Ed Geyer, Chicago; Johnny McHugh, San Francisco, and Joe Novak, Berkeley, were just ahead with 71.

Smith, playing today on the north course, which he knows well, is set to burn up the greens and come home this afternoon right at the top of the mob.

Among the players who teed off today determined to wipe out bad fortune in the first 18 holes was Charlie Chung, Chinese, champion of Hawaii, with an 81 hanging around his neck; Al Watrous, of Grand Rapids, Mich., 73; John Black, Wichita veteran, and Bobby Cruikshank, Oklahoma City, 74. Tomorrow the finalists, first 64 scorers, stroke it over 36 holes.

Last Night's Fights

New York—Sid Terris, New York, got the decision over Lucien Vinez, France, ten rounds. Joe Glick, New York, got the decision over Danny Kramer, Philadelphia, ten rounds. Harry Felix, New York, got the decision over Louis Vincentini, Chile, ten rounds.

Acquisition of Shortstops May Mean Cubs Will Jilt Hollocher

Charley Hollocher may not return to big league baseball again. This has been the rumor for some time, following the failure of the former great shortstop to round into form last season.

And now comes the report that, should he essay a comeback it will not be in the uniform of a Chicago Cub.

This rumor gains credence as the makeup of the Cubs for next season, judging by present plans, is weighed. Manager McCarthy has already gathered together three young shortstops; he feels are ready to play the bag for his outfit if called upon. One is Jimmy Conney, well tempered vet from

the Cardinals. Another is Maurice Shannon, who learned the fine points of infielding from McCarthy at Louisville. The third man is Clyde Beck, infielder obtained from Los Angeles.

It has been suggested at times that Hollocher might find more congenial surroundings with some other club—that his desire to leave Chicago has affected his playing in recent seasons, although, of course, his main trouble has been a stomach ailment.

So it wouldn't surprise the wise boys if some kind of a deal was engineered by the Cubs in the near future which would send Hollocher to another major league outfit. And there are many clubs who would like to take a year's chance on him.

VINEZ MAKES POOR SHOWING

Continental Champ Beaten by Sid Terris.

By Davis J. Walsh.
NEW YORK, Jan. 9.—Having borrowed our money, "promoted" our tourists, exaggerated our faults and minimized our virtues, Europe took up the less legitimate business last night of short-changing the boys who make the turnstiles turn. It stood sponsors for one Lucien Vinez as continental lightweight champion

and when the young man appeared for his bout with Sid Terris at Madison Square the come-ones came right ahead to the number of 14,000.

Twenty per cent of the populace walked right out on the pasture before the tenth and final round, which gave them the well and widely known Mexican stand off. They lost their money and they saved their lives. Vinez was terrible. No less.

He fought not, neither did he box. He fought no other idea than to remain, as is, for the regulation ten rounds. If he led a dozen punches all night, the writer missed the other seven.

It got so bad that the merry villagers cheered ironically every time Vinez so far forgot himself as to gesture with his left, but the only trouble with that was that a gent can always go to a mass meeting and cheer for nothing. It cost the ringsiders \$7.70 to the individual wallet last night.

They got slightly less than seven cents worth of action and Terris is now wise as at fault, he tried to make a fight of it but Vinez wouldn't be a party to the idea. He spent the entire 10 rounds in holding and covering up, or at least that was the writer's understanding of the situation. He, the writer, couldn't be annoyed watching the last two.

Vinez is said to be a veteran of some 43 matches and it is to be hoped that he gets plenty more of them—somewhere east of Suez. After last night's exhibition, or whatever it was, he ought to be all washed up here.

There are too many good fighters in America for the fight public today to support some foreigner of moderate ability and synthetic heart. Not one of those 10 rounds, by stretching the most elastic of imaginations, could be called against Terris. Not one of them could be called even, unless you happened to favor scoring as followed by those who draft the major league catching averages.

The solid English breakfast and light luncheon have become increasingly popular with the French people since the war and an American manufacturer of breakfast foods has been in France with the idea of starting a factory there if conditions warrant.

METHUSELAH'S WIFE

THE STORY OF A GIRL WHO MARRIED FOR MONEY

It was plain to Mrs. Brent Daly that her former sister-in-law was on the warpath. Mary's words had made their impression. "What is stolen can be stolen back," she wondered how Mary, feeling the loss of Noble so bitterly, had been able to stay away so long.

Naturally Mrs. Daly mentioned the matter to her husband over the dinner table.

"She probably thinks that she has reclaimed all her old beauty and charms," he said, in the cautious way that was characteristic of his relations with his wife, who dominated him utterly.

"Brent, she looks like a perfect scarecrow. And she probably spent thousands of dollars upon herself in Paris. The gown she wore was designed for some one 20 years younger. I'd say that she was after another man, if only she weren't so bitter about Noble."

Her husband ventured to laugh. "The old epigram is true, a woman has to hate one man in order to love another."

Mrs. Daly took no notice of the remark. "Well, it's Noble's fight and funeral, not mine. I did all I could."

"You did too much," Mr. Daly observed, boldly. "Noble had to marry that girl just to show you and his daughters that he wouldn't be bossed. If you hadn't loosened so many tears and entreaties, whatever interest he had in her would soon have worn off. You know how changeable he is."

"You're talking nonsense, as usual," she replied. "Nevertheless her husband's words made her uncomfortable."

At the same hour, in Harwood House, Noble was announcing to Laurel, "Harry Yancey has some business to take up with me, and I intend him to come over this evening and bring Paula."

Laurel colored with annoyance. "Dearest, I'm not saying this because I mind it this evening, but the next evening you are free, let's spend it alone. I never get to see you any more. . . . I get to see less of you than even your stenographer." She didn't notice the flash in Noble's eyes as she said "stenographer."

"Oh, I hope you weren't planning to go somewhere this evening. I hadn't heard you say anything about it, so I supposed—"

"Won't you understand, Noble? It isn't that I want to go out; to have you take me anywhere, it's just that I want you to be nice to me like you used to. . . . You never ask me to play the piano for you any more."

"If you want me to, I'll phone Harry not to come over. I wouldn't have asked him, only he has some business."

"No, dear, let them come." She had not touched her consommé when Louis removed the cup. What was the use? Noble would do as he pleased. Whatever she said, he would go on making arrangements and arranging his evenings to suit himself. The honeymoon was over. She was beginning to see that he considered his own pleasure first. It had never been so, only she hadn't noticed it before. . . . The Yanceys! She disliked them both. Yet she must receive them and smile at them and endeavor to please them, just because they were Noble's friends.

"There was a short item in one New York papers about the fact that Mr. Bel-Goddes is coming here to do the decorations," Noble announced. "Let's see, I think I have the clipping here." He knew very well that he had it in his purse, where he had carefully bestowed it when it was called to his attention.

Laurel heard him with sullen interest. She had resolved not to ask him any more questions about the details of the ball. Let him discuss them with whomever he liked, she didn't care.

Noble finally produced the small piece of newspaper and she glanced over it hastily.

"It's the first time he has ever designed settings for such an affair," Noble observed, with pride.

"I hope they're very wonderful," she felt called upon to say something. When they arose, he took her arm. "You're not feeling very well, are you?"

"I am all right, dear." Her eyes belied her tone.

He regarded her doubtfully for a moment. "Perhaps I'd better phone the Yanceys and tell them not to come."

"No, dear, I'm all right. You must attend to your business with Harry." Noble didn't like the emphasis she placed on this last sentence.

Words! Words! Words! That was all her life had gotten to be. Laurel reflected, as she sat before her dressing mirror preparing for the coming of the Yanceys. No more tennis, no more tramps, not even motoring. Imprisonment was her lot day in and day out.

She had worked herself into a bitter mood by the time the Yanceys arrived, and she greeted them stiffly. Paula's dress, the selfsame model she had seen at least half a dozen times before, annoyed her. Couldn't Paula afford any better?

The men excused themselves after a moment or two. "We have a big deal to discuss," Harry explained.

Laurel, feeling very awkward, interrupted the silence that settled down in the library when the two men had gone, with: "Paula, how long did your honeymoon last?"

"Oh, we were away three weeks. We went to Florida. It was mid-win-

ter, but there weren't any such crowds as there are down there now."

"No, I don't mean your wedding trip; I mean your honeymoon. How long did it last?"

Paula regarded her blankly. Then a glimmer of understanding lighted her eyes. "You mean, when did Harry start to going out at night alone?"

Laurel smiled. "Yes."

"About two months I guess." She reached over and took Laurel's hand

understandingly. Instinctively, Laurel drew it away. She did not want Paula's understanding or sympathy.

The visitor was silent for a moment, perhaps hurt. Then she said, "I wonder what the men are talking about. . . . Let's listen in." She got up and tiptoed to the door of the little-used billiard room. Laurel's eyes followed and watched her. Suddenly she saw Paula's face flush. The visitor motioned to her silently with an agitated finger.

REASONS WHY YOU SHOULD USE PLATE GLASS FOR ALL MOTOR CAR REPLACEMENTS

Plate glass is the one kind of glass to use for motor car replacements because it is true, clear and free from troubles. It has no wavy lines that curl and swirl. It hasn't any rainbow prisms, nor any humps or hollows. It makes driving easy because it helps the eye work naturally, as it should. You don't have to strain nor squint through Plate glass. It doesn't repeat objects ahead of you.

Plate glass goes into windshield or door without being pushed or forced. That saves time and trouble and means quick delivery of your car. Plate glass is **worked** in the making much as a carpenter works wood. So it is even-surfaced and reliable. It makes your windshield or window tell the truth, every time. And Plate glass stands road shocks and vibration. That eases up on the cost to you.

FROZEN RADIATORS

Not only mean a great inconvenience to the winter motorists but often times result in large repair bills.

This can be entirely avoided by keeping the proper proportion of denatured alcohol in the radiator throughout the winter season.

Feel free to drive up to any of our service stations and our experienced attendants, without charge, will gladly test your radiator to determine whether it contains denatured alcohol sufficient to withstand winter temperatures. For your convenience we have supplied each station with hydrometer equipment which makes this service possible.

Philadelphia White Rats.
Save Money—It Pays.
George Will Survive It.
Another "Live Asset."

By ARTHUR BRISBANE.
(The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of the Review-Tribune.)
Copyright, 1925.

Philadelphia's Wistar Institute, part of the University of Pennsylvania, specializes in breeding white rats, cousins of the gray rat, not ordinary sewer rats that carry plague.

The rats live in a special rat establishment costing \$50,000, and are shipped to scientific bodies all over the world, including Japan, that scientists may work on "standardized rats" and compare results satisfactorily.

Rats live, die and submit to disease infection, knowing as little as human beings about the why or wherefore. Little do they dream that their tissues, growth and digestive processes happen to resemble those of men, and that they breed, live, die, only to save a higher race from death. Even so, they know as much as we do about primal causes and final purposes.

Why are we breeding and dying?

It pays to save money, if you let compound interest work while you save. The world heard of a little toy bank into which a Carthaginian child put copper coins, worth six cents, twenty-five hundred years ago. Charles E. Mitchell, head of New York's National City bank, bought the old savings bank, that never paid interest, and will exhibit it in his savings department.

His experts figure that the six cents, had they been originally invested at 5 1/2 per cent compound interest, would amount in dollars to a sum equaling a three and a six, followed by 59 zeros. That amount of money would make a sphere of solid gold with a diameter sixty-two and a half billion times greater than the diameter of the earth.

Such figures are beyond the grasp of any mind, and besides no one is interested in waiting 2,500 years. But account "number 738" in New York's Bank for Savings amounts now to \$2,377, all of which came from a deposit of \$15 made 100 years ago. The descendant of the original depositors is leaving the money in the same bank, to go on growing. It interests him.

While you work, save some money and let compound interest work for you.

A young man is dismissed from George Washington university because his publication, called "The Lash," criticized the moral character of George Washington. He sues the university, promising to make his next issue worse, with suppressed love letters of the Kip Rhinelander trial.

What Do You Know About The Constitution?

The Constitution of the United States is the accepted pattern in government for the whole world. It is man's most successful attempt to govern himself.

While this document is mentioned more frequently than any other paper in American history many Americans have only a confused idea of its provisions.

To understand your government thoroughly you must know its Constitution. The Washington Information Bureau of this paper will supply you with a copy of the Constitution, Declaration of Independence, and Articles of Confederation without cost.

N. PRESS KERR, SUGGESTS SITE ON BROADWAY FOR STRUCTURE

Council President Outlines Plan at Organization Meet.

PROPOSAL FILED

Hayes Named President Pro Tem; Shone Again Clerk.

Opening gun in a campaign for a new city building, to house fire and police departments, jail, courtroom, all city offices and a public auditorium, was fired at the initial session of the city solons in the municipal courtroom last evening.

President of Council N. P. Kerr offered a proposition which he declared "would not cost the people one cent" and "would give the city something to be proud of." His proposition was received and filed.

Kerr's Proposal.
Kerr, in a communication read at the meeting, suggested the fire station site on Broadway and St. Clair avenue for the proposed new structure. With additional property, to be acquired, he advised the erection of a four-story structure, the first floor for fire department, patrol, garage for all city trucks and water works office; second floor offices for mayor, auditor, treasurer, service-safety director, chief of police and desk sergeant; third floor for health clinic, sanitary officer, engineer and living quarters for caretaker; fourth floor for municipal court, council chamber and public auditorium; basement for cell quarters, water works storeroom, comfort station and heating plant. The building would be equipped with elevator and shower baths for city employees.

The council president pointed out that the city in 1919 had a building fund of \$52,692.51 which was transferred to the sinking fund. The balance in the Market house fund is \$38,000, which might be turned into the building fund by a vote of the people. He also suggests the sale of the Taylor.

Michael Callahan, 87, Confederate Army Veteran, Dies Here

Michael Callahan, aged 87, Civil War veteran, and for 20 years watchman at the D. E. McNicol pottery, died in his home, Third street, at 3:30 o'clock this morning following a week's illness of complication of diseases.

He was born in Ireland, and came to the United States in 1858. Following the Civil War, during which he served four years in an Alabama regiment in the Confederate army, he came to East Liverpool. He had lived here 40 years. He was a member of the Catholic church.

He is survived by two sons and two daughters, John and Jerry Callahan and Mrs. Margaret Bastain and Mrs. William Schepp, all of East Liverpool. His wife died 14 years ago.

Funeral services will be held at 9 o'clock Tuesday morning in the St. Aloysius Catholic church, in charge of Rev. Thomas E. Walsh. Burial will be made in the St. Aloysius cemetery.

Midland Worker Is Crushed to Death In Grinding Machine

Joseph Brosky, 48, is Caught in Machinery at Pittsburgh Iron and Steel Foundries Company Plant

Joseph Brosky, 48, was crushed to death, when caught between the wheels of a sand grinding machine at the Pittsburgh Iron and Steel Foundries company's plant, at Midland, at 4 o'clock yesterday afternoon. Life was extinct when his body was removed from the machinery a few minutes after the accident occurred.

Brosky, employed as operator of the machine lost his balance and fell under two revolving wheels. His chest was crushed. His body stalled the motor, operating the machine, and then fellow workers discovered the accident.

The body was removed to the Shepherd morgue where Dr. Harry McCarter, Beaver Falls, county coroner, was to conduct an inquest this afternoon. Brosky, who made his home at a rooming house at 468 Midland avenue, was a native of Poland, where he is said to have a wife and child. He has no relatives in this country.

Brosky's fellow countrymen are making plans for his burial.

Hilbert also filed with Clerk of Courts Frank Ballantine 453 bills of sale, a record for one day. This put the total number filed over the 500 mark.

Collection in the county for the period from Dec. 8 to Dec. 30 totaled \$13,968.25, according to Auditor Hamilton.

The distribution of license money on Dec. 30 was as follows: East Liverpool, \$5,478.19; Wellsville, \$825.23; East Palestine, \$881.84; Salem, \$1,337.52; Leetonia, \$725.92; Rogers, \$61.95; Hanover, \$113.95; Columbiana, \$1,141.62; New Waterford, \$94.25; Lisbon, \$2,058.61; Salineville, \$1,120.02; Washingtonville, \$128.15.

DEPUTY REGISTRAR J. S. HILBERT COLLECTS \$20,999.35 AUTO TAG FEES

East Liverpool District Office Also Files 453 Bills of Sale During Period Between Dec. 10 and Jan. 7.

Deputy Registrar James S. Hilbert of East Liverpool, in a report filed in County Auditor C. E. Hamilton's office yesterday, showed the collection of \$20,999.35 in 1925 automobile license fees during the period between Dec. 10 and Jan. 7.

Hilbert also filed with Clerk of Courts Frank Ballantine 453 bills of sale, a record for one day. This put the total number filed over the 500 mark.

Collection in the county for the period from Dec. 8 to Dec. 30 totaled \$13,968.25, according to Auditor Hamilton.

The value of the estate has been placed at \$728,920.49 in an itemized report by Attorney William H. Voder.

The court will ask the state tax commissioner to send an expert to Lisbon to determine the issues involved.

The application sets forth that the Mary A. Patterson memorial home for girls now being erected in East Liverpool, as provided by Mr. Patterson before his death, will cost \$270,000, while the liabilities total \$392,611.27, including the cost of the memorial building.

An application for a determination of the inheritance tax on the estate of the late Monroe Patterson of East Liverpool was filed today with Probate Judge Lodge Riddle at Lisbon, by the executors, Myrtle H. Jones, May Morley Bryan, George A. Patterson and Ida N. Thompson.

The value of the estate has been placed at \$728,920.49 in an itemized report by Attorney William H. Voder.

The court will ask the state tax commissioner to send an expert to Lisbon to determine the issues involved.

An employee of the General Advertising company was kidnapped following robbery of the company's payroll, amounting to \$2,500.

Fair, Then Rains Or Snows, Weather Forecast for Week

WASHINGTON, Jan. 9.—Weather outlook for the period January 11 to 16, inclusive:

Ohio Valley—Mostly fair weather except for a period of rains or snows during the latter half of the week. Moderate temperatures most of the week.

Region of Great Lakes—Period of snows or rains the early part of the week and another shortly after the middle of the week. Normal temperatures except for a moderately cold spell about the middle of the week.

Rev. W. C. Stokes Will Give Sermon On Law Defiance

Bootlegging, gambling, immorality and law breaking in general will be discussed by Rev. W. C. Stokes, pastor of the Pennsylvania Avenue Methodist Episcopal church, from his pulpit Sunday evening on the subject, "What's Wrong With East Liverpool?"

Rev. Mr. Stokes declared that he will cite specific cases where liquor is being sold in violation of the federal, state and city ordinances. He will not name violators, but will tell in what neighborhoods they operate, apparently, unmolested.

"I will not indulge in personalities, but will be plain spoken," the pastor said today.

WHEELER KINSEY FACES COURT

Wheeler Kinsey, 209 Pennsylvania avenue, was arrested by Patrolman Lister yesterday afternoon upon information of his wife, Mrs. Edith Wheeler, who charged him with assault and battery and asked that he be placed under a peace bond.

Kinsey entered a plea of not guilty when arraigned before Municipal Judge Hanley yesterday afternoon and his trial was set for Monday afternoon. His bond on the assault charge was fixed at \$500, while \$200 was the amount of the peace bond. Unable to furnish either he was remanded to jail.

The Juniors participated in a running broad jump. H. Bailey, Whites, took first place; J. Skidmore, Whites, second; G. Mackall, Blues, third; D. Mantz, Blues, fourth, and D. Felt, Blues, fifth. The standing is: Whites, 426; Blues, 412.

In the 60-yard potato race, conducted by the Elementaries, J. Weston, Panthers, took first place; J. Strobel, Wildcats, second; C. Duff, Wildcats, third; J. Dawson, Wildcats, fourth; W. Strobel, Wildcats, fifth. The standing: Panthers, 463; Wildcats, 459.

The tournament will end next Saturday when the Juniors will play baseball, while the Elementaries will participate in a tug-of-war and relay race.

J. C. THOMPSON CLOSES DEAL FOR DIAMOND BUSINESS SITE

Stag Hotel Building Sold by Altman Brothers.

CHANGES PLANNED

Mrs. Millie Elitzer Acquires Foutts Structure.

Sale of the four-story brick building in the Diamond, commonly known as the Stag hotel, by Morris and Harry Altman, to John C. Thompson, was announced today. The consideration was not made public.

The new owner, who owns the three-story brick business building at the corner of Sixth and Market streets, adjoining the hotel structure, has assumed charge of the property. Minor improvements, including connecting doors on the second and third floors, will be made.

Altman Brothers purchased the structure nine and one-half years ago from John Anderson, a resident of Pennsylvania. The basement and first floor of the building are occupied by a chain cigar store, whose lease runs three and one-half years. Second, third and fourth floors, having 14 rooms, are used for hotel purposes. The structure covers a ground space of 19x57 feet. There will be no change in the tenant for the present.

Mrs. Millie Elitzer has purchased from Mrs. Anna B. Foutts, through the C. W. Hendershot agency, the two-story brick business building at 622 Dresden avenue, north of the Diamond. The consideration was \$12,500. The basement and store room on the first floor are occupied by a soft drink establishment of which William Elitzer, husband of the new owner, is part owner. Living quarters are located on the second floor.

Rev. W. C. Stokes Will Give Sermon On Law Defiance

Bootlegging, gambling, immorality and law breaking in general will be discussed by Rev. W. C. Stokes, pastor of the Pennsylvania Avenue Methodist Episcopal church, from his pulpit Sunday evening on the subject, "What's Wrong With East Liverpool?"

Rev. Mr. Stokes declared that he will cite specific cases where liquor is being sold in violation of the federal, state and city ordinances. He will not name violators, but will tell in what neighborhoods they operate, apparently, unmolested.

"I will not indulge in personalities, but will be plain spoken," the pastor said today.

WHEELER KINSEY FACES COURT

Wheeler Kinsey, 209 Pennsylvania avenue, was arrested by Patrolman Lister yesterday afternoon upon information of his wife, Mrs. Edith Wheeler, who charged him with assault and battery and asked that he be placed under a peace bond.

Kinsey entered a plea of not guilty when arraigned before Municipal Judge Hanley yesterday afternoon and his trial was set for Monday afternoon. His bond on the assault charge was fixed at \$500, while \$200 was the amount of the peace bond. Unable to furnish either he was remanded to jail.

OHIOAN FATALLY HURT WHEN HIS AUTO SKIDS; EIGHT DIE IN CRASHES

Sweepers Keep Street Railway Tracks in East Liverpool and Steubenville Districts Open During Night as Six-inch Fall Blankets Many Cities in Ohio Valley.

INTERURBAN CARS AND TRAINS REPORTED ON NORMAL SCHEDULES

Scrapers are Used on Public Highways to Permit Traffic to Move, While Street Commissioner Buzzard and His Force Clear Paths in City and Open Cutters.

Accompanied by a 40-mile an hour gale that swept the Atlantic seaboard, a snowstorm of blizzard proportions last night and early today raged throughout the east.

The snowfall ranged in different localities from two to eleven inches. Traffic was seriously delayed in many places. Wire communication also suffered.

Many deaths were attributed to the storm. Four were killed in an auto accident on Staten Island, N. Y., resulting from the snow blinding the driver. Four died in like manner at Newport, Mich., and one death was reported from Steubenville, O.

Firemen answering alarms in many cities throughout the east were greatly hampered in their work by frozen water mains.

The weather bureau issued a warning that the storm was sweeping northward along the Atlantic coast.

Nick Russin, 60, of Jamaica, was drowned when a barge, of which he was the captain, broke loose from a tug which was towing it in the East river, and overturned.

Street car and train schedules were normal today while East Liverpool was digging itself out of a six-inch snowfall.

While Weather Forecaster Lawrence Copeland of Millport, estimated the snowfall in the county at six inches, rural districts reported drifts to the depth of three and four feet in places where the wind had a clean sweep.

Early Cars Are Delayed

Two snow sweepers, housed at the Pennsylvania avenue car barns, were operated by the Steubenville, East Liverpool & Beaver Valley Traction company on its lines in the East Liverpool district early last night, while another covered the Steubenville territory.

The sweepers worked most of the night to keep the tracks open.

While the cars on the city lines maintained near normal schedules last night, interurban cars to Beaver, Steubenville and Salem were late. The first cars over the tracks this morning were also late, but after that they operated according to schedule.

The Y. & O. railroad started its snow scraper out at 8 o'clock last night.

All trains on the C. & P. division were on time today. Ticket Agent James Hodgkinson said.

Use Scrapers on Highways.

There were only a few scattering complaints of telephone trouble reaching the Bell exchange here. The snow was dry and did not cling to the wires, officials said.

Snow scrapers owned by the highway department were put on the roads at 10:30 o'clock last night, some of them pulled by two trucks. This

125 Attend Supper By Service League Of Church Ladies

Members of the Ladies' Service league of the First Methodist Episcopal church entertained approximately 125 at supper last night in the church social rooms.

A program of vocal and instrumental music was given following the league's business session.

Miss Florence Updegraff, in a short talk, lauded the league members for their efforts during the recent bazaar.

The program for the personal evangelism campaign was discussed. The triumph of the city, as outlined by league officers.

"We preferred to make our own investigation," said Sargent.

Walsh then brought the name of Secretary of the Treasury Andrew W. Mellon into the hearing.

"Haven't you learned that Secretary Mellon is interested in the ownership of the aluminum company?" asked Walsh.

"Yes, I learned that through the public press," the attorney general replied.

"Had you no information about that fact before you read it in the newspapers?"

"No."

"That was within the last 30 days?"

"I have no knowledge of it," said Sargent. "The only information I have I got from the newspapers. When I read it, I cannot tell you."

Girl Killed, Two Boys Injured in Coasting Crash

CHARLESTON, W. Va., Jan. 9.—Marcella Hill, 17, died in a hospital here today and Edward Sackett, Jr., and Lester Lanham were recovering from injuries sustained in a coasting accident.

Frank W. Clarke, driving an automobile in a side street, swerved his machine to avoid hitting the coasting party, but a slippery street caused the car to slide into the path of the coasters.

Miss Hill's skull was fractured.

DAYTON WOMAN AUTO VICTIM

Crushed Against Pole as She Alights From Trolley Car.

DAYTON, O., Jan. 9.—Mrs. Nora Belle Helmer, 42, was instantly killed shortly before 6 o'clock this morning when she was struck and crushed against an electric pole by an automobile driven by E. S. Fetters, 27, who is being held by the police pending an investigation of the accident.

The fatality is the second resulting from automobile accidents in Montgomery county since January 1.

Mrs. Helmer, with her husband, Charles Helmer, had just alighted from a street car and started across the street toward a restaurant, where they were employed when the accident occurred.

Helmer told the police that he had almost succeeded in dragging his wife clear of the auto when his glove pulled off and she slipped from his grasp.

Fetters is a truck driver for the Foley Packing company and was on his way to work at the time of the accident.

Juvenile Bible Study

One question for each day is provided. The parent will find it interesting and helpful to have the child take up the question each day and aid it in finding the answer in the Scriptures, thus developing a knowledge of the Bible and where to find it in the things decided. Send or bring the little folks to the class Sunday at 1:45 p. m. The "Ceramic Cafeteria Auditorium," 121 West Fifth Street. Have them bring their Bibles. The questions for this week are:

170. Did God create only Adam of dust?
Answer: See Genesis 1:11, 12, 24; 2:9, 19.

171. Who named all of the beasts, birds, fish, etc.?
Answer: See Genesis 2:19, 20.

172. Why did God prepare the Garden of Eden?
Answer: Because the earth was not then perfect. He made the perfect garden for Adam's home.

173. What were Adam and Eve commanded to do?
Answer: See Genesis 1:28.

174. When and how will the earth be filled—replenished—with Adam's race?
Answer: See John 5:28, 29; Acts 24:15; Isaiah 35:10; Acts 17:31, 32; 3:20, 21; 15:14-17; Zephaniah 3:8, 9.

175. Where Adam and Eve on trial for life?
Answer: See Genesis 2:17; Romans 5:12.

176. If Adam had obeyed God, would he have gone to heaven?
Answer: God did not promise Adam a heavenly home, but an earthly one.

WEST LIBERTY DOWNS CHESTER

High Floor Team Loses
Hard Fought Game to
Stoope's Squad.

Chester high school basketball team was defeated here last night on the Rock Springs park floor by West Liberty Normal by a score of 36 to 24. Chester second team won from the West Liberty Reserves by a score of 22 to 18.

Coach Wild's lads played good basketball and gave the Stoope's outfit

a hard battle. The latter squad had the weight and experience and these factors counted heavily in the final result. Chester, after being outplayed in the first three periods came back strong in the final quarter and for a time made a strong bid for victory.

Kiger opened the scoring for West Liberty by caging a double marker under the basket. Campbell came back from Chester with a field goal after he received an accurate pass from Pinney. Kiger shot another field goal and Miller tossed a foul for Chester. Hughes tossed another field goal for the visitors and Bartley repeated a minute later for Chester. Lund scored on a free throw and Kiger shot his third field goal of the quarter for West Liberty. Kiger was taken ill and was replaced by Hughes with Mahoney being substituted in the guard position. Hughes shot a field goal and the first quarter ended with West Liberty leading, score 11 to 5.

Hughes started the second period with a point from the foul line and Bartley repeated for Chester. Mahoney broke into the scoring by tossing a two pointer. Campbell then shot the only field goal made by Chester in this period. West Liberty scored in rapid succession on field goals by Ellis, Mahoney and Lund. They increased their lead at the end of this period by 16 points, the half ending with the score standing 24 to 8.

Chester started out at a rapid clip to being the third period with Campbell scoring a field goal. Hughes scored from the foul line and Campbell added another score from the free line. Robinson and Lund tossed field goals for the visitors, while Campbell added two more points on a field toss. Miller made a foul for Chester and Hughes scored another field goal for the Stoope's squad. The period ended with the score 31 to 14 in favor of the visitors.

Simcox went in for Bartley in the final period. Pinney took Bartley's place at center while Simcox went to the forward position. Campbell shot a pass to Simcox and the latter sent the ball through the net for two points. In making the toss he was fouled and he counted twice on free throws. Campbell raised the hopes of Chester supporters at this stage when he tossed a field goal. Simcox made two fouls in rapid succession. With West Liberty leading by eight points and only a few minutes to play Mahoney and Lund came through with field goals which made victory certain for their team.

Kiger, Hughes, Lund and Ellis were the stellar performers for West Liberty, while Campbell, Simcox, Bartley and Miller stood out prominent for Chester.

The preliminary tilt was close throughout with Chester reserves outplaying their rivals completely in the second half. Ewing, Jefferies and Miller were the scoring stars for the reserves, while Stevens and Supler made the most points for West Liberty.

EAST LIVERPOOL — AMERICA'S POTTERY CENTER

SATURDAY, JANUARY 9, 1926.

Stand By The Boy Scouts!

The East Liverpool district, including Chester and Newell, W. Va., is asked to contribute \$4,000 toward the \$10,000 budget to be raised by the Columbiana County Council, Boy Scouts of America, in a one-day campaign to be conducted on Wednesday, January 27.

Announcement of plans for the drive, of which T. E. Lewis, former furniture store owner, is to be chairman, was made yesterday by Harry A. Wilson, county scout executive, who has established his headquarters in the Ceramic City.

Similar canvasses will be made in Wellsville, Lisbon and Leetonia, while Salem and Columbiana will take their quotas from community chests.

The Boy Scout movement, in which 601,130 youths are enrolled, has been organized in every state of the Union as well as in the national capital, with President Calvin Coolidge as honorary chieftain. Other honorary officers are Chief Justice William H. Taft, Colin H. Livingstone, Daniel Carter Beard and W. G. McAdoo. James J. Storrow, of Boston, is the active president.

The East Liverpool district, with four troops in the city proper and one each in Chester and Newell, has six units among the 1,120 organizations in Ohio, with a membership of 23,876.

Boy Scouts aim is to be as near as possible like those men who, two and three hundred years ago, pushed their way into what then was the great North American forest, and blazed a way for what has become the United States, the National Council points out. In other words, the Council says, a scout of the present, like our forefathers, must be ready for any emergency.

Let's put across this campaign for future American manhood in record breaking time. The movement deserves support.

A Chance For Bright Minds

Efforts to obtain an endowment of \$5,000,000 for a university to educate young California "geniuses" are said to be meeting with opposition from "an enormous body in California opposing science."

This is a mournful situation in a time and land supposed to represent the peak of civilization. Blind opposition to science can only be characterized as stupidity. For science is simply "organized knowledge," embracing the alphabet and the multiplication table no less than the mechanical sciences and the latest discoveries in biology. And of all the scientific teaching carried on, from the kindergarten to the university graduate schools, there is probably less than 1 per cent to which any intelligent person could offer a reasonable objection on grounds of inaccuracy, misrepresentation or bad public policy.

It is said, truly enough, that the promoters of this plan may make mistakes in picking their 1,000 "most gifted children" for this university. No sure way has yet been found for judging genius in childhood. Often a genius is not really recognized until after death. But the principle of selecting the children showing the brightest minds in the performance of their school work, and giving them exceptional opportunities for further learning, is sound.

A little of the effort lavished on backward pupils might go a long way if devoted to exceptionally gifted ones. There is no greater educational tragedy than holding back alert, eager minds and forcing them to keep pace with slow minds. This new university should be a good thing, if it accomplished nothing more than encouraging greater flexibility in the whole educational system to give the best minds an untrammelled chance for progress.

Enemies Of Birds

The argument between cat-lovers and bird-lovers is probably endless. Now and then, however, they say things to each other which are deserving of thoughtful consideration. A cat-lover, in a recent letter to a daily newspaper, made these pertinent remarks:

"Has man any right to take a gun and go out to the birds' abode and shoot them down ruthlessly? He does this not for food, but for sport, so-called."

"Against the cat the bird's chances of escape or capture are about equal. I feel that man is much the crueler creature. In the woods he is the only wild animal. Man is the only enemy of all animals."

"So don't be too hard on the cat while men shoot and hunt, and women wear the furs and feathers of the victims, at the same time feeling horrified to see a few feathers on the porch, but admiring them on a hat."

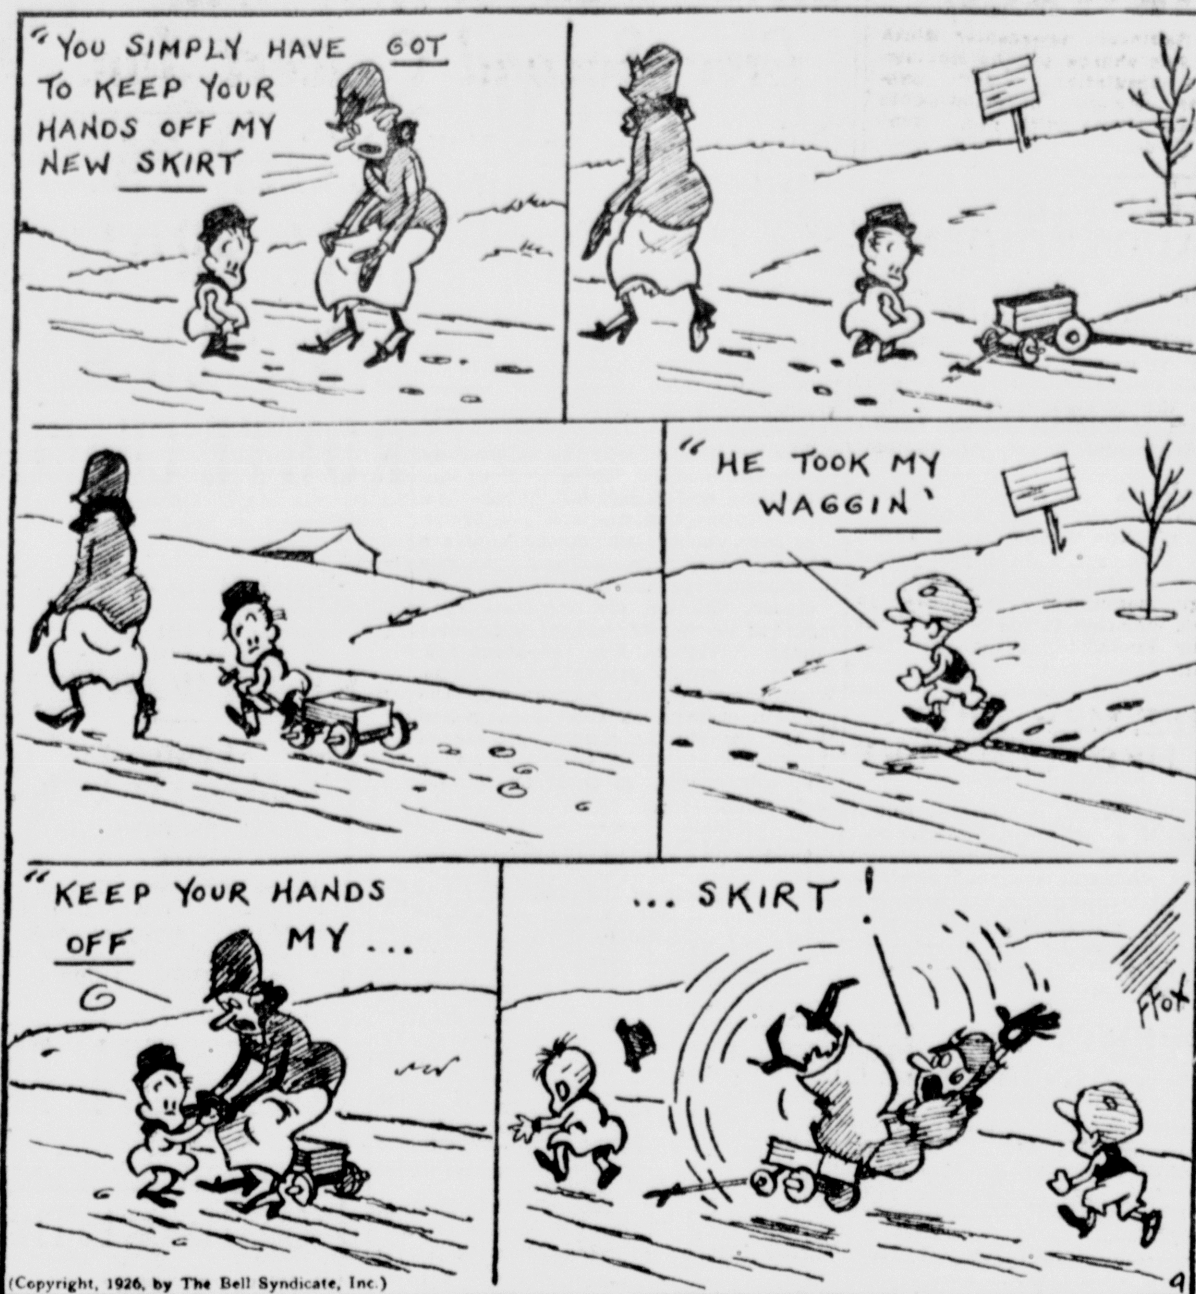

This doesn't condone the house cat's depredations on song bird life, but it does suggest that while seeking to protect birds from cats it would be well at the same time to protect them better from men and women.

It is announced that "a possible bride has been found at last for the Prince of Wales," a girl "very popular with the king and queen." So the poor prince will probably go right out and get thrown off a horse again.

Sure, there's always room at the top of the ladder. And just as you reach for the top rung, somebody generally jerks out the bottom.

Government in France seems to be a game of "Tag—you're it!"

NEW YORK DAYBYDAY

By O. O. McINTYRE

NEW YORK, Jan. 9 — The gentlemen who conduct the speakeasy parlors in and on the fringe of the Tenderloin are not always able to keep so far ahead of the game financially as might be supposed by their rather opulent manner.

They suffer heavy losses from sour checks. And there is nothing they can do about it. If they sue they face a questioning as to just what they sold. When a patron has been generous in his patronage it is difficult to refuse to cash a check when funds run low. Too, an angry patron may become a snitch. A half dozen blind pigs have been forced to close on account of rubber checks. The rubber check is the kind that bounces back from the bank (taped with an "N. S. P."). They are the chief cause for the high price of illicit hooch.

The proprietors not only lose the cash advanced but future patronage. There is the tale of one man who decided to have a final fling before mounting the water wagon. It was a hectic ten days, at the end of which he landed in a barred room of a Central Park West sanatorium.

And speakeasies held worthless checks for \$10,000. "I'll be afraid to go back into any of them again," said the culprit. Nearly all supper clubs have held announcements over the cashiers' cages: "We do not cash checks." They have also suffered heavy losses.

It is, of course, a case of gypsies being gyped, but one speakeasy man decided not to "succumb without a fight." He sued a prominent playwright for a large sum after the latter had acted as host for a gay soiree lasting several days and then protested the check.

Strangers have difficulty in understanding the various shades of New York's patios. The Bronx has its queer pronunciation as well as Brooklyn, and, of course, the lingo of the Bowery is not understandable to many. At old Tony Pastor's a comedian used to recite a poem which he said was especially for the Brooklynites. It ran:

Little Golly Molphy, she soitenly is a hoid,
She lives on Tholty-Second street right next to Tholty-Thoid.
She reads the Evening Jolnal and she reads the Evening Woild—I soitenly do love Golly when her doily hair is coiled.

Personality often overshadows slight physical deformities. In a Broadway play one of the leading players was a hunchback. He was such a finished actor that his deformity was soon forgotten and he carried away high honors.

On the Stock Exchange floor visitors often inquire why many of the harried men wear white carnations. It is a phase of superstition which many themselves cannot explain. The white carnation is considered an emblem of good luck. No place on Manhattan Island breeds so much superstition as Wall Street. Scores of men carry rabbit feet, lucky charms, etc., daily to ward off disaster.

I have yet to find a man who plays for high stakes who is not touched by some absurd superstition. Race track followers are invariably influenced by what they call "hunches." Big gamblers are the most constant patrons of Fortune Telling Row. Theatrical producers who risk fortunes in histrionic gambles have a hundred or more ridiculous superstitions which they never think of disregarding.

HASKIN'S LETTER

By FREDERIC J. HASKIN

Fighting for Temperance. WASHINGTON, Jan. 9.—Washington's birthday, February 22, will be featured this year by a conference in the nation's capital that has for its object the promotion of temperance in the United States. In view of the fact that the country now has prohibition by constitutional amendment and the Volstead Law to enforce it, it may appear somewhat extraordinary that such a conference should be held. It may seem even more extraordinary when it is known that the conference has been arranged by and will be held under the auspices of the Association Against the Prohibition Amendment.

This organization announces, however, that it has formed a committee of leading American scientists and economists which, after exhaustive study and observation of the alcoholic beverage situation both in this country and abroad, is to draft and submit to congress and to the public "constructive plans for workable liquor control systems, with the object in view of finding a method to bring about the greater degree of real temperance in the United States."

It is not expected that this committee will be prepared to report at next month's conference, but a preliminary presentation of the problem will be made for discussion by the national gathering of a thousand or more leaders in the movement.

Through this discussion plans will be formulated for the legislative and political activities of the organization which has for its object, first, the repeal or modification of the Volstead Law, and ultimately, the repeal of the Eighteenth Amendment.

"The prohibition experiment has been tried and has hideously failed," says William H. Stayton, the national chairman of the association. "There is everywhere an outcry against the crime and corruption which accompany Volsteadism. Everywhere, too, men and women who have hopelessly, or even approvingly watched the experiment, admit the failure. The public press, particularly in its editorial columns, emphasizes the need for a change. The people grow under burdensome taxes. Our plans guarantee them relief. Canada makes an impressive demonstration. Altogether, it is evident that we can in 1926 elect a congress favorable to the modification of the Volstead Law, provided we receive adequate support from those citizens who realize the need and the wisdom of this."

Victory in 1926 Drive.

The national headquarters of the association has announced a "Victory in 1926" drive for members and votes which it believes will result in victory in the congressional elections next November.

"New departments have been added to our organization," says the announcement. "Congressional districts of vulnerable drys are being surveyed, and alliances are being made with political groups in the various localities. A field force of trained campaign men and women is being built up. A speakers' bureau is being organized. Information and statistics relating to prohibition are being compiled for submission to congress and the general public. New membership drives are being inaugurated; new state divisions are being organized."

Officers of the association are quite frank about their program for the approaching congressional campaign. Having compiled complete information about all of the 435 congressional districts a board of strategy will consider the situation in each district. If the board finds that a district is satisfactorily wet, neither time nor money will be spent there, and the same hands-off policy will be pursued with respect to districts that are hopelessly dry. But, where the board sees a fair fighting chance, where there is enough wet sentiment to warrant a belief that a dry congressman can be superseded by a wet one, campaigns will be made both prior to the primaries and at the general elections.

No candidates will be approved who are not the kind of men who ought to be in the national legislature, according to Secretary G. C. Hinckley, of the association. No man can win the organization's support simply because he is wet. He must have other sterling qualifications, as well.

"The prohibitionists have persistently tried to foster the belief that the old liquor interests are backing this association," continued Mr. Hinckley. "Nothing could be further from the truth. The association has a rule that men who previously made their money as brewers, distillers, or dispensers of liquor are not admitted to voting membership. We have done this in order to avoid creating the impression in the minds of the public that we are subsidized by the old liquor people or are working for their ends. What might be called the new liquor people—the bootleggers and moon shiners—are, of course, against us, because if our campaign to modify the present law is successful it will shut off the huge profits they are now making."

Large Membership Claimed.

A membership rapidly approaching the three-quarters of a million mark is claimed for the association against the Prohibition amendment. Most of these members pay less than ten dollars annually in the shape of dues and contributions. The total annual income of the association now approximates \$300,000, and detailed statements of receipts and expenditures are made a matter of public record so that there may be evidence that there is no indulgence in underhand or questionable tactics.

The name of the organization is accounted for by the fact that it was formed immediately after the ratification of the Eighteenth Amendment and before the enactment of the Volstead Law. The association was incorporated under the laws of the District of Columbia in January, 1921, and the articles of incorporation declare "it shall be the purpose of the society to favor and encourage obedience to the Eighteenth Amendment and to all laws passed to carry into effect the provisions of that amendment, but the society purposes at the same time to conduct an educational campaign intended to convince the electorate that said amendment establishes in certain respects an unwise and dangerous precedent, and that its repeal would be for the best interests of our country."

Conspicuous among members of congress who have identified themselves with the association are Senators Bayard, of Delaware, and Bruce of Maryland, and Representative Hill.

BETHANY HEAD LAUDS STUDENTS

Playing recent books on subjects relating to colleges and college students, Dr. Cloyd Goodnight, president of Bethany college, said he considered the young people of today just as sensible as the college students of former years, in a recent address before the students and faculty of the college.

"Considering the kind of parents you have had and the number of times they have taken you to church I think that you are a pretty fair bunch," he told the students. Dr. Goodnight concluded: "In answer to Dr. Coe's question in his book 'What Ails Our Youth?' I would say 'Not anything.'"

PROPERTY VALUES GAIN IN STATE

Property in West Virginia in 1925 had an assessed valuation for taxation purposes of \$2,133,491,140. Compared with the figures of the previous year, the gain was a scant one-half of one per cent.

Compilations made in the tax commissioner's office and based on reports from all 65 counties show the foregoing total includes these valuations: Realty, \$1,246,484,692; personally, \$426,978,072; public utilities, \$461,027,476. There was a gain in realty valuation over 1924 of \$10,000,000, in round numbers. Personally showed a loss of \$5,000,000, which was offset by a gain in the valuation of public utilities.

Hunting License Receipts.
Receipts from hunting licenses issued last year just compiled by state officials show a large increase over that of previous years. Accidents were held down to the minimum with fewer reported than for several years.

Civic Music Society Will Give Second Concert Jan. 21

Philip Manuel and Gavin Williamson, Pianists, and Miss Jessie I. Christian, Prima Donna Soprano, on Program.

Second number of the 1925-26 course of the Civic Music association will be presented in the Ceramic theatre, Thursday evening, January 21, it was announced today.

The program will be offered by Philip Manuel and Gavin Williamson, pianists, assisted by Miss Jessie Isabel Christian, prima donna soprano. Seat reservations will be made at the theatre box office Monday, January 18, commencing at 9 a. m.

Messrs. Manuel and Williamson are regarded as two of America's premier concert pianists. The two-piano repertoire is widely diversified in scope.

Whether they are reproducing the graceful string and flute passages of Mozart or the fantastic capering of the bassoon in a Debussy cakewalk, they are entirely at ease and in complete mastery of their instruments. The two-piano concert recitals of Manuel and Williamson produce the effect of the veritable pianistic orchestra. Although of singular unity in their musical conceptions, still these young men are definitely individual in their artistry. In building their programs, they have chosen from the literature for pianos the most beautiful and entertaining compositions written.

Miss Christian, formerly with the Chicago Opera association, is an American singer, who has achieved notable success abroad as well as in her native land. Her first European appearance was at Bordeaux, France, where as first soprano she was engaged to sing in 18 roles. In Paris, her engagement led her to singing at special performances.

She is often called the "Cinderella of the opera" because of last-minute calls to fill the place of a prima donna suddenly indisposed. With only an hour's notice she substituted for Galli-Curi in Chicago and sang the coloratura role of "Les Huguenots," with phenomenal success.

Already this car has been viewed by a greater number, we believe, than have attended the introductory showing of any automobile. Throughout the country, many thousands purchased New-Day Jewetts during the first two weeks—more actual sales, we believe, than have ever been made in a like period on a new car.

Such interest is natural, for The New-Day Jewett is a most unusual new car. It is truly a new-day automobile—designed for today's motoring needs and admirably fitted to meet them.

To gain full appreciation of the remarkable results fine Paige engineering has attained in new-day driving ease and brilliant performance, you must not only see this beautiful Jewett, but ride in and drive it. If you have not yet been able to do this, delay no longer!

NAVY TO QUIT RIGID AIRSHIP EXPERIMENTS

Shenandoah Disaster Among Arguments of Opponents.

WILBUR SILENT

Uncle Sam Will Leave Development to Commercial Airmen.

By WILBUR MORSE, JR.

WASHINGTON, Jan. 9.—The navy is to discontinue its elaborate experiments with big rigid airships and leave the development of the dirigible to commercial airmen, it was learned today.

The Shenandoah disaster, with its appalling loss of life and property, the military limitations of its sister ship, the Los Angeles, and the questionable value of the great slow moving Zeppelins as an arm of the fleet, are said to be the arguments forwarded by opponents of the airship.

Neither the navy department's recommendations nor the bureau of the budget's estimate for this branch of the service have been made public as yet. But it was learned upon authority today that both the budget and the navy appropriations bill, in its present form, virtually ignore the enthusiastic urgings by advocates of naval dirigibles.

And neither the budget estimate nor the nearly completed supply bill for

the navy provides for the two new rigid airships which naval airmen had been hopeful would be built to replace the Shenandoah.

May Deflate Los Angeles.

On the contrary, it was said today by a high government official that there was a strong possibility that debate in the house over the forthcoming navy bill would bring a strong demand for the deflation of the Los Angeles and the reduction of the Lakehurst naval air station to a skeleton guard for the giant birdhouse there.

Should this be done the day of the dirigible in the navy may be over for many years.

Opponents of the navy's developing this type of vessel today pointed out that since private corporations are now building and operating rigid airships the necessity of the navy using government money to continue experiments with the new art is obviated.

The tremendous cost of helium, with which the rigid airships of the Los Angeles and Shenandoah type are inflated, was also cited as an argument against continuing operation of the big airships.

Expect Sentimental Demand.

"Undoubtedly there will be a great deal of debate in congress on this question," said one congressman closely associated with the present program of the navy's air service.

There will likely be a sensational demand to keep the rigid airship because men like Commander Zachary Lansdowne gave their lives to develop it and their sacrifices would be in vain if the work was not carried on.

"Such sentimentality will not hold much water, however, since it is evident that the development of the dirigible is to continue. Moreover, there are other sentimentalists who will cry against risking any more officers like Lansdowne."

"Secretary Wilbur and the navy department in general are of the opinion that the funds of the navy must be allocated in such a way as to give the faster, more effective heavier-than-aircraft preference over the lighter-than-air."

"With that in mind it would be safe to assume that the part of the rigid airship which will play in the next year's program of the navy will be relatively slight."

Secretary Wilbur has religiously refused to disclose what his recommendations on the subject have been.

REPORTS FROM STOCK MARKET

NEW YORK, Jan. 9.—Stocks of the California oil companies, the motor and public utility companies were the leaders in a moderate advance of prices in the stock market today. Reports of sensational developments in western and mid-continent petroleum companies, of which official confirmation is still lacking, focused the attention of a large number of traders on the oil stocks, with Pacific Associated, Marland and General Petroleum the most active in this group.

The Associated Oil company's stock will be distributed to the stockholders of Pacific Oil company of record Jan. 26, and the future control and operation of the company is a live topic in speculative circles here. The stock was in active demand around 51, against the season's low at 32, while General Petroleum rose two points to above 59 and Pacific Oil sold up a point at 78. The Pan-Americans continued to move downward.

General Electric sold up eight points to a record high at 344 on reports that the directors contemplated another important distribution of cash or stock to the stockholders of the company.

Death Dance Big Feature of "Gorgeous Stuff" at Strand

Do you believe in death? Do you believe in a death dance? Imagine a beautiful girl petrified in the throes of death coming to life through the charms of music, and the entrancing dance of death by a skeleton. This is only one of the 17 scenes that will be unfolded during the presentation of the musical comedy, "Gorgeous Stuff," which opens a week's engagement at the Strand theater, starting Monday matinee.

Declared to be a miniature "Follies" and heralded by theatrical critics as the crowning triumph of all recent popular priced musical comedy, "Gorgeous Stuff," with its 60-foot baggage car filled to the brim with intricate stage mechanism, elaborate scenery, beautiful costumes, will bring to East Liverpool one of the most pleasing musical comedies to play here at popular prices.

The costumes and scenery alone cost \$25,000.

SUNDAY SCHOOL NIGHT SERVICE

"Character" is Rev. W. A. Knapp's Sermon Topic.

"Character" was the topic of the sermon given by Rev. W. A. Knapp, evangelist, of Westerville, at the First Methodist Protestant church, last evening. "Sunday School Night" was observed, with a good representation of Sunday school teachers and scholars in attendance.

During the song service, Russell E. Kaufman, Dayton evangelistic singer, and Rowland T. Kaufman, of this city, sang "The Old Rugged Cross." The former also sang Rev. Mr. Knapp's favorite Gospel song, "Jesus is Dearest Than All."

Rev. Knapp, taking his text from Matthew 3:17, "This is My Beloved Son, in Whom I Am Well Pleased," said in part:

"We have here God's ideal of character. We all want to go to heaven when we get through this brief journey here. Since there is a glorious heaven to gain and an awful hell to shun, we should live such lives as will please God. Would the Lord put His O. K. on your character?"

"You can never be Christ, but you can be more Christ-like in character. Holiness is not assuming a holier than thou attitude. I'd rather be afraid of sin than to be afraid of holiness of the Bible kind. That isn't the kind that has to be kept in hot-house to be kept blooming. Jesus was a man among men, a virile, red-blooded man, who mingled with humanity. He bore the test of contact because of His inner spiritual life."

DEATH ROLL

Mrs. Ida Smith.

Mrs. Ida Smith, 60 years old, wife of William Smith, Leetonia, died last evening in the Salem Clinic hospital following an operation.

Deceased, who was a daughter of the late Mr. and Mrs. W. Wilderson, was born near Leetonia and lived her entire life in that section.

In addition to her husband she is survived by one son, Raymond, Leetonia, and one daughter, Mrs. E. K. Hall, Youngstown; two brothers, C. G. Wilderson, Leetonia; Edward Wilderson, Struthers, and one sister, Mrs. Albert Harold, Columbiana.

Funeral services will be held at 2 o'clock Monday afternoon in the home in Pearl street. Rev. H. C. Brillhart, pastor of St. Paul's Lutheran church, will have charge. Burial will be made in Oakland cemetery, Leetonia.

Joseph J. Crawford.

Joseph J. Crawford, 4 months-old son of Mr. and Mrs. J. T. Crawford, died yesterday in the home at Crawford's corner on the Lincoln highway.

Private funeral services will be held in the home at 10 o'clock Monday morning. Rev. C. J. Rank, pastor of the Madison Presbyterian church, will have charge. Burial will be made in Riverview cemetery.

The body can be viewed Sunday afternoon and evening.

Drive For City Building

for lot on Sixth street for \$55,000; playground lot, Second and Washington street, for \$8,000; old West End fire station, which has been abandoned, for \$5,000; Huston avenue pump station for \$3,500; River road pump station site for \$500; lots at Pennsylvania avenue and Boyce street for \$1,500; lot on St. George street for \$500, and five lots in Huston avenue for \$2,000, which would make a total of \$166,602.51.

Rent Charges, Interest Losses.

The city now is paying \$2,280 per year in rents. Three per cent is being lost in interest on the market house funds which adds another \$1,140 per year, or a total of \$3,420. This, Kerr declared, would meet interest charges on \$65,000 worth of bonded indebtedness, which it issued, would make \$234,602 available for the proposed building.

"The city is badly in need of a municipal building," the communication said. "This plan could be accomplished by adding very little more bonded indebtedness than we now have. I realize that the city must practice economy, but by the figures which I have herewith submitted you can readily see what can be done if we put our shoulder to the wheel and help put it across."

"Let council place its cards on the table face up and give the people the true facts in the case and they will support a city building at this time. Let's get busy and move on town."

Ask Assessment Reduction.

Councilman-at-large Charles Hayes, who is now serving his third term in council, was elected president, promoted by the solons. G. Arthur Shone was re-elected clerk.

R. G. Boyd, Liverpool township dairyman, asked council for a reduction of street improvement assessment on a piece of property located on St. George street, which he recently sold. Boyd declared that the lot had been improved at \$1,000 and that the improvement assessment totaled \$447. Only one-third of the valuation, his complaint was turned over to the claims committee for investigation.

Michael Payne, Foster street, requested council to halt the county's closing of Foster street, which leads off West Eighth street. He was told that council had already notified the commissioners that this street must be kept open.

Firemen and others from the municipal water works department appeared before council asking for an increase in wages. Firemen are now being paid \$4.50 per day, while others receive \$4. The amount of the increase was not suggested, but the request was for "a living wage."

The rules committee reported favorably on the rules used by the last council. With a change in the meeting night, which will be the second and fourth Thursday of each month, the report was approved.

Nine Killed in Storms

morning practically all improved highways had been covered, but the scrapers will not be withdrawn until the snow ceases falling. The work is being directed by State Highway Engineer J. H. Kirtner, assisted by County Engineer Lloyd Kirk. The scrapers encountered trouble in breaking through many of the deep drifts.

Street Commissioner Oliver Buzzard and his force today are engaged in removing the snow from the business district. The gutters are being opened to permit drainage in case of thaws or rain. Ashes are also being scattered at the foot of the hillside streets as a protection for drivers, who were out by the hundreds today.

Automobiles were operated under difficulty last night.

Traffic Delays in Cleveland.

CLEVELAND, Jan. 9.—Blanketed under its second heavy snowfall of the season, all Ohio today was reporting delays in traffic and wire communication as a result of the storm which began late yesterday and continued uninterruptedly throughout the night.

Snow was still falling in Cleveland today, and the official forecast was that more than six inches of snow would cover the ground.

In Steubenville, C. W. Walker, 55, of Cadiz, was killed when his auto skidded in the snow and crashed against a telephone pole. Two women were injured in Cleveland, when they were struck by autos, while a third suffered a broken wrist when she slipped and fell in the street.

In Youngstown the snowfall was the heaviest of the year.

COLUMBUS, Jan. 9.—A mantle of snow varying from three to four inches thick, covered all of Central Ohio this morning. The local U. S. weather forecaster predicted more snow and slowly rising temperature for today.

ZANESVILLE, Jan. 9.—Both the Licking and Muskingum valleys are covered with snow to a depth of from four to twelve inches—the latter depth being along country roads where the snow has drifted. Snow here is six inches deep and it is still snowing.

MARION, O., Jan. 9.—Interurban and local street railway traffic was seriously impeded today by the winter's heaviest snowfall. More than seven inches fell, according to Weather Observer E. H. Rappensperger.

Auto-Interurban Car Collision.

TOLEDO, Jan. 9.—Blinded by the heavy snow fall, four persons were dead at Newport, Mich., near here, today, having been instantly killed last night when the auto in which they were riding was struck by a Detroit-Cleveland interurban car at a grade crossing.

The dead, brother, sister and two cousins, all of Chenevare, 18, Irene Chenevare, 15, his sister, Edwin Chenevare, 18, cousin, Gertrude Duval, 17, a cousin.

Western Pennsylvania Blanketed.

PITTSBURGH, Jan. 9.—With a depth of five and a half inches reported at 8 a. m., Pittsburgh led western Pennsylvania in snowfall today, according to weather bureau reports.

The snow was still falling during the morning with no prospect of a let-up.

Street car and automobile traffic in the city is badly congested in places. At Wheeling, W. Va., a snowfall of six inches was reported.

No special suffering or fatalities because of the cold weather had been reported.

ALTOONA, Pa., Jan. 9.—The winter's heaviest snowfall thus far buried Altoona under 10 inches of snow today. Snow continued to fall.

Two Injured in Washington.

WASHINGTON, Jan. 9.—A three-inch blanket of snow covered the national capital today, and grew thicker as the day advanced.

Snow fell steadily during the night and was responsible for many motor accidents, and delayed traffic.

Among the casualties was Salvatore Manz, who was run down by an automobile carrying Joe Judge and Dutch Reuther, Washington baseball players. He was taken to the hospital with a possible fractured skull.

BALTIMORE, Jan. 9.—Maryland was covered with a three-inch fall of snow during the night.

Four Killed in Crash.

NEW YORK, Jan. 9.—Three men met death, another died soon afterwards and a fifth man was severely hurt early today when their automobile skidded in the snow on a sharp turn and struck a telegraph pole in Concord, Staten Island. The three men killed were Francis J. Collins, Owen Fagin and James J. Conroy, all of Staten Island. Thomas Hayden, 33, of Brooklyn, died within an hour after the accident.

The only survivor was Eugene Merrill, 30, of Staten Island, who is said to have been the driver. He is charged with homicide.

It was evident the car, a sedan, was going swiftly at the time of the crash. The machine was reduced to a twisted mass of wreckage. The victims were catapulted through the glass windows of the machine by the impact.

Twenty-Five Flee Fire.

FITCHBURG, Mass., Jan. 9.—The Majestic theater, the big store of the Miller Clothing company and several small manufacturing plants were destroyed in a fire which did \$100,000 damage here today to the Dickinson building in the heart of the business district.

Twenty-five persons were driven adjoining the theater, and a furniture store from their beds in the Revere House, store on the other side of the theater was damaged by smoke and water.

Ice-coated firemen fought the blaze in near zero temperature with a howling snow storm sweeping the city.

BALTIMORE, Md., Jan. 9.—Damage caused by a fire which swept the American Skirt and Coat company plant here early today, in which eight firemen were injured, amounted to \$100,000, it was estimated today. Five alarms were sounded before the blaze was brought under control.

Nine of the injured firemen are in a serious condition today, it was reported.

Twelve Injured in Madrid Wreck.

MADRID, Jan. 9.—Twelve persons were injured today when a subway train jumped its tracks.

EAST END

"SIN" IS TOPIC OF EVANGELIST

Large Audience Hears Rev. Lincicome Speak in Oakland Church.

Another large crowd attended services last night in the Oakland Free Methodist church when Evangelist Forman Lincicome spoke on "Sin."

He spoke, in part, as follows: "Sin is covetous. Covetousness is at the bottom of all our world troubles. Take covetousness out and you will take all the strikes out; all the class hatred out; all the liquor traffic out, and all the trouble that exists between capital and labor."

"Men used to pray, 'Give us this day our daily bread,' but now one man says give me all the wheat, another wants all the oil, another all the timber, while another wants all the coal."

"Sin knocked Adam and Eve over the embankment 6,000 years ago and ever since has been in the knocking down business. Some modern divines are telling us that man didn't fall down, that he fell up. You couldn't make a bank president in all the state of Ohio believe it."

"The devil knocked Adam and Eve down. Some people tell me they don't believe in a personal devil, but as long as I see so much devilry around I am bound to believe there is a devil. Some tell me the devil is chained—well if he is I hope God will let me get out of East Liverpool before he gets loose. I tell you the old boy is not chained but is loose right here in this city."

Two services will be held tomorrow.

Switzer Funeral.

Funeral services were held this afternoon for Mrs. Caroline Switzer, 81 years old, in the home of her daughter, Mrs. Ira White, 1201 Pennsylvania avenue. Rev. John Douglas, pastor of the Oakland Free Methodist church, was in charge. Burial was made in Riverview cemetery.

Choir Members Meet.

Members of the choir of the Pennsylvania Avenue Methodist Episcopal church met last evening. The session was attended by the pastor, Rev. W. C. Stokes. Revival services will open in the church in their future.

To Assist in Drive.

Members of the local Boy Scout troop will take part in the campaign to finance the activities of the Columbiana County Council which will be staged on Wednesday, January 27.

Revival Continues.

Rev. B. R. Johnson, pastor of the First Church of Christ, spoke last evening at the revival services in the Pennsylvania Avenue Church of Christ. His topic was "A Mother's Heart." He will preach at the services tomorrow.

The government, from Federal Judge E. S. Thomas, has secured a judgment for \$1,000,000 against Gerald Chapman, plus 6 per cent interest for bonds stolen by Chapman in a big mail robbery. That judgment should be classed as a "live asset," with Russian bonds that baby American financiers bought from the czar, just as he was starting on the toboggan.

Mayor and Cabinet Member Hosts to Fellow Officials

Executive and Service-Safety Director-Designate Urge Harmony and Review Municipal Problems at Dinner.

Members of city council and administration heads of the municipal government were guests of Mayor Ralph C. Benedum and Service Safety Director-designate John W. Moore at a 6 o'clock dinner in the Larkins annex, Market street, last evening.

The affair, a get-acquainted meeting, was arranged for the purpose of briefly discussing some of the questions which will face the city during the next two years. Mayor Benedum, who presided, appealed for harmony.

Mr. Moore, who assumes the directorship on January 15, said that the city owed between \$16,000 and \$20,000 for street improvements completed last year. He suggested that bonds be issued to pay this bill so that council may begin its work this year with a clean slate. He also urged the grading of the city's section of the Youngstown-East Liverpool road, using the county's steam shovel. This work would require an expenditure of about \$6,500, whereas it would cost twice that figure if done by contract.

J. T. Croxall, township trustee, suggested the improvement of the California Hollow road which is a part of the new highway to Youngstown.

Other speakers were: President of Council N. P. Kerr, and Councilmen Charles Hayes and Thomas Farrall, senior members of the legislative body.

POINTS TO CONSIDER WHEN BUYING A RADIO

First is the manufacturer back of the product, reliable or will it soon be a discontinued set?

Second, is the local representative permanently established in business? Will he be where you can find him for service and satisfaction?

Third, Do the mechanics understand their business sufficiently to insure permanent installation?

Fourth, The kind of a guarantee you really get.

City's Second Oldest Resident Dies On Eve of 93rd Birthday

MSGR. MOONEY IS ELEVATED
James W. Love, Civil War Veteran and Retired Pennsylvania Railroad Worker, Succumbs in Hospital.

James W. Love, 340 Eighteenth street, Civil war veteran, retired Pennsylvania railroad employee, and Wellsville's second oldest resident, died last night at 6 o'clock in the East Liverpool hospital following a several weeks' illness of complications.

He would have been 93 years old today had he lived.

He was born in Mercer county, Pa., on Jan. 9, 1834. He was the oldest retired veteran of the Panhandle division of the Pennsylvania railroad, his name having been placed on the honor roll on May 1, 1901.

During the Civil war he served with valor as a member of the 176th Ohio Volunteer Infantry. Prior to joining the service he worked as a brakeman and bridge carpenter on the C. & P. division of the Pennsy.

After the close of the war, Mr. Love returned to the C. & P. as a bridge carpenter, but left again in 1886 and for the following four years was chief of police of Wellsville.

On November 8, 1870, he became a detective on the Panhandle division of the Pennsylvania and worked in that capacity until he was retired. His wife died in 1908.

He is survived by a daughter, Lola, at home; a son, William; one granddaughter and two great grand children.

He was a member of Henry Cope post, G. A. R., the Panhandle Division Veterans' association and the Second Presbyterian church, of Wellsville.

Funeral services will be held Monday afternoon at 2 o'clock at the late home, in charge of Rev. Thomas Berger, pastor of the Second Presbyterian church. Interment will be made in Spring Hill cemetery.

The body may be viewed this evening and any time Sunday at the D. M. MacLean chapel, Riverside avenue. Monday morning the body will be removed to the residence where it may be viewed up until the time of services.

MOORE FUNERAL HERE SUNDAY

Funeral services for Mrs. Harry Moore, of Cleveland, who died yesterday morning, will be held Sunday afternoon at 2 o'clock at the home of Mrs. Al Moore, a sister-in-law, in Tenth street. Burial will be made in Spring Hill cemetery.

Mr. and Mrs. Moore were former residents of Wellsville. Mr. Moore is an ex-Wellsville mayor.

Besides her husband, she is survived by four children, Mrs. William Drury, Milwaukee; Joseph, of Iowa; Mrs. Edward Anderson, Cleveland, and George, at home.

UNION SERVICES WELL ATTENDED

Union prayer services arranged by the Wellsville Ministerial association which have been held nightly in the various churches of the city, have been held nightly in the various churches of the city, have been marked by large attendances.

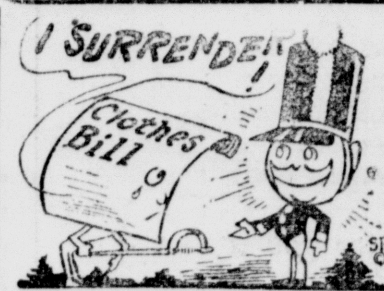

The closing meeting of the services were held last evening in the First Methodist Episcopal church, with the pastor, Rev. W. S. Rowe, presiding. The sermon was delivered by Rev. F. H. Magill, pastor of the First Presbyterian church who discussed the subject, "Families, Schools, Colleges and the Young."

Ask the Question, Answer is Found In World Almanac

The World Almanac for 1926 was published with the New Year. For forty years this standard ready reference annual has been indispensable, and never more welcomed than today. It deserves a place on every desk—in the office, in the factory, in the school and college, on the farm and in the home. Where else can one find so readily the up-to-date answers to all the questions of the day?

It puts a millions facts within arm's reach. In its 900 pages of small but clear type are compressed the history of the United States and of the whole world. The history made in 1925 is there. The facts and statistics are from authoritative sources, well digested, well arranged.

How has the Dawes plan worked? Gilbert's report is there. The Locarno Treaties? In full. The new tax bill before congress. All the essential points and figures. Exempt bonds? It tells how the states and cities spent the money they got from them. What have we really for an air force? Read the report of the Morrow committee. How is the enforcement of the prohibition law getting on? That also is told. And all this information is readily accessible—consult the twenty-one pages of the index. When did so-and-so happen? If in 1925, the diary of events begins on Page 91 and runs to Page 118, with six pages of deaths four of great benefactions and seven of scientific progress following; records of all sports as usual.

The World Almanac has always been an invaluable handbook of American politics. Each one has the latest election returns from all the states, and

this year it carries as well a political history giving every presidential campaign. It is a mine of information for every man. The World Almanac is published by the New York World. Price 60 cents post paid. Readers who keep it year by year on their bookshelves find \$1.10 a small price for the cloth-bound copies.

Arrived

The New-Day Jewett

THE new-day car is here—and it's a Jewett. It is the answer of one of the automotive industry's oldest, strongest and most successful organizations to today's vital motoring needs and problems.

No surface comparison can adequately gauge this car's worth. Measure it instead against the situations and emergencies of driving.

Begin, if you like, with the severest test of all—take The New-Day Jewett into close-packed city traffic.

Dart in and out—shoot swiftly ahead of the jam—stop with soft smoothness—park in spaces you would have thought impossibly small!

Realization will come quickly—that here is a car, marvelously responsive to your touch, which takes instant advantage of

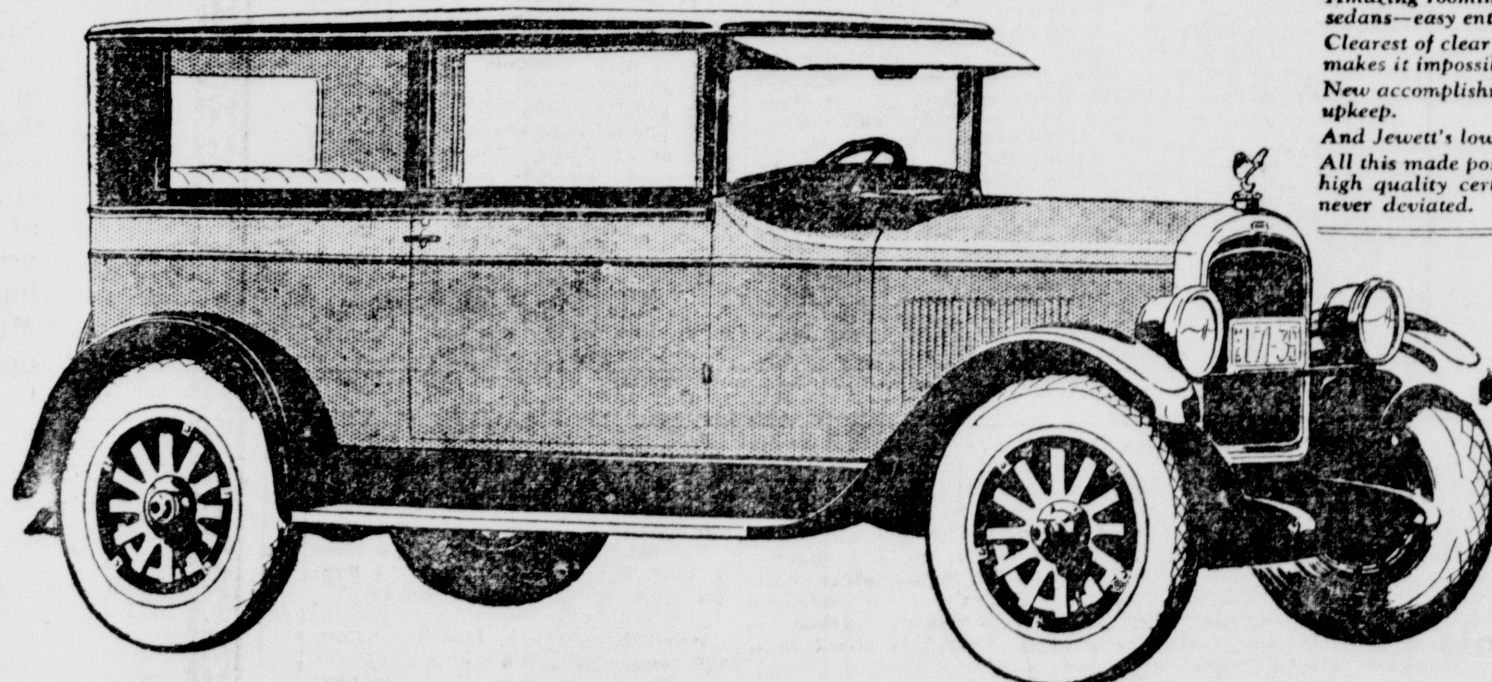

every opening, gets you through streets that seem impenetrable, lets you come and go as you please where ordinarily you would never try to drive. A New-Day Car For New-Day Needs.

Then leave the crowded streets and seek unfrequented country roads where The New-Day Jewett will reveal a quality of performance which not even preceding Jewetts, acknowledged masters of the open road, can surpass.

After years of preparation, The New-Day Jewett is here—ready for you to see it and drive it.

Let nothing prevent your seeing this epochal new-day car without delay! And do not stop with a casual inspection, for the better you learn to know this car the more you will appreciate its unusualness—its right to be known as "The New-Day Car For New-Day Needs."

Paige hydraulic 4-wheel brakes, bringing you to cushioned rest almost instantaneously from any normal driving speed. Fulllest possible development in ease of control—response to wheel and throttle that makes this car seem to answer to your wish rather than your touch. Amazing roominess—more than in many 120 inch wheelbase sedans—easy entrance and exit—luxurious comfort. Clearest of clear vision that reveals the unwary pedestrian and makes it impossible for another car to approach unseen. New accomplishments in economy—of first cost operation and upkeep. And Jewett's lowest closed car price. All this made possible by 17 years of Paige experience and with high quality certified by standards from which Paige has never deviated.

LOCAL PASSERS DROP TWO GAMES

Meeting their first scholastic opposition of the season, Wellsville high school cagers last night were defeated by the Red and Black quint, at Salem, 39 to 9.

The Orange and Black lost both ends of the double bill on the north county court, the local girls losing a 25 to 17 decision in the preliminary. The marksmanship and almost airtight guarding of the Salem team featured the engagement.

Coach Klinck's quint tonight is scheduled to pry the lid off the home season with the Mingo Junction five furnishing the opposition.

The contest is slated to start at 8 o'clock. No girls' game has been carded.

YESTERDAY'S PUZZLE ANSWERED.

Help that lame, achy back!

ARE you dragging around, day after day, with a dull, unceasing backache? Are you lame in the morning, bothered with headaches, dizziness and urinary disorders? Feel tired, irritable and discouraged? These are common signs of kidney weakness. Don't risk neglect! Help your kidneys with Doan's Pills. Doan's have helped thousands. Are endorsed by home folks. Ask your neighbor!

Here's An East Liverpool Case:
John Grimm, foreman in pottery works, 2315 Ambrose Ave., says: "Sharp pains across my back were torture and I had all I could do to straighten after stooping. I often had such dizzy spells I couldn't see. My kidneys acted infrequently. Doan's Pills from Holloway's Drug Store cured me of the attack."

DOAN'S PILLS

Stimulant Diuretic to the Kidneys
Foster-McBura Co., Mfg. Chem., Buffalo, N.Y.

My! What a Pain!

It takes you right across the back! Sometimes in the arm, hip, or foot. Probably due to over-abundance of that poison called uric acid. Happens when the kidneys become clogged, and are unable to filter the uric acid from the blood.

There's more of this trouble in winter, following a cold, or an attack of grip, which, like any other infectious germ disease, fills the blood with an extra load of poisons that overwork and break down the kidneys.

You may know the kidneys are weak when you have constant backache, dizzy spells, the twinges and pains of lumbago, rheumatism, or neuralgia, or when sleep is disturbed two or three times a night.

At the famous Invalids' Hotel, Buffalo, N. Y., (Dr. Pierce, Prop.) hundreds of such cases are treated every year, and the result was the discovery of "An-uric."

Drink plenty of water, preferably hot, before meals, followed by one of Dr. Pierce's "An-uric" (anti-uric-acid) Tablets obtained in 65c bottles at any drug store. This treatment dissolves and flushes out the uric acid and helps to bring kidney action back to normal. If you want a trial package send 10c to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.

L. H. COPELAND
FILES REPORT

Observer Reports Only
Five Clear Days in
December.

There were only five clear days during the month of December, it has been officially reported by L. H. Copeland, of Millport, co-operative weather observer for Columbiana county. There were eight fully cloudy days during the month and 18 partly cloudy days.

The maximum temperature for the month is placed at 34.3 and the mean minimum at 21.1, with a mean of 27.7, and a maximum of nine degrees below zero, which was recorded December 30, last.

Precipitation for December totaled but .56 of an inch and a snow fall of 4 inch. The normal temperature for December was 28.9 degrees, and the coldest temperature for any December since the first records were kept was 18 below zero and this was in 1917.

No extreme cold or hot weather prevailed during the old year. The rainfall during April, May and June was below normal, damaging hay, wheat and oats. October and November last year were noted for the frequent rains, causing the harvesting of corn to be delayed to a considerable extent.

The year of 1925 was about normal, so far as the fall of rain is concerned, also temperature. Owing to the fact there was very little snow on the ground during December last, probable damage has resulted to the spring wheat crop.

January in 1926 has a snowfall of about 16 inches, and July 10, last, there was a rainfall of 2.07 inches.

The greatest daily range of temperature last year was 47 degrees, which was registered March 24. June 5 last was the warmest day of the year, with 94 being registered.

Normal temperature of the last 30 years is placed at 48.3.

Clerk Draws Jurors
To Hear Testimony
In Delinquency Case

Twelve names have been drawn from the jury wheel by Clerk of Courts Frank Ballantine and Sheriff George Wright, which will constitute a jury to report to Judge Lodge in the case of the state of Ohio against Mrs. Altea Miller, of Salem, charged with contributing to the delinquency of Gertrude Lettman.

The names of the jurors drawn are: Homer Twaddle, Alfred E. Stoddard, John E. Anderson, Maude McMurray and George C. McBane, all of East Liverpool; Allan Taylor, East Rochester; Carl Juergens and Rex Rueger, Salem; Lulu Lange, Salineville; John Essick and Amanda Hass, Moultrie; J. A. McCord, Summitville.

The case has been set for trial January 15 in common pleas No. 2 with Judge Riddle presiding.

The defendant asked for a trial by jury when she appeared in court several days ago, and after entering a plea of not guilty.

THREE DIVORCE
CASES DROPPED

The divorce action filed in common pleas court June 29th last by Emilia Andrews against her husband John V. Andrews, has been dismissed from the record on the motion of the plaintiff, and at the costs of the plaintiff. The temporary restraining order previously granted in this case when it was first filed has been dissolved.

A similar entry has been made in the divorce case of Claude E. Conrad against her husband, Richard M. Conrad, the plaintiff filing the motion and the dismissal being at the costs of the plaintiff filing the motion and the dismissal being at the costs of the plaintiff.

In the case of Sylvia Showalter against her husband Howard Showalter, this action has also been dismissed from the record on the motion of the plaintiff, and at her costs.

Plan to Sell Manse.

An application has been filed in common pleas court by the trustees of the Middle Sandy Presbyterian church of Homeworth, seeking permission of the court to sell its present manse to Jesse Freshley. It is the intent of the congregation to build a new manse with the funds derived from the sale of the present parsonage.

Case Dismissed.

For lack of prosecution and failure to file a petition the case of Walter Mick against George Mort Sr., which was carried to common pleas on appeal has been dismissed by Judge James G. Moore. In this action the original action which was tried in a lower court, was for the recovery of \$35 claimed due for work and labor.

Transcript Filed.

A transcript in the case of E. L. Grate against James Miles, a case heard in the court of former Justice of the Peace Maud E. Gil at East Liverpool has been filed in common pleas court, an appeal from the decision of the lower court having been taken by the defendant. In this case the plaintiff sought a judgment against the defendant for \$24.51 for work and labor. Judgment was rendered December 11 last.

Lorah's Passers Register Victory In First County Clash

Trim East Palestine Quint By 41-24 Count

Blue and White Coach Uses Entire Second Team in Final Period After Regulars Cinch Contest; Visitors are Strongest in Initial Quarter.

COACH Lorah's East Liverpool high school basketballers broke the ice last night in the county conference 1926 campaign by winning decisively from the Brown and White of East Palestine on the local floor. The count was 41 to 24.

The contest was the first real scholastic clash of the season for the high school lads who had previously been defeated twice—once by Franklin and Marshall academy and again by a great Alumni team—and it demonstrated clearly and unquestionably that the Blue and White quint has the stuff to take care of itself against any ordinary school outfit.

The visitors were a potent fact in the game only during the first quarter. During the second period they began to lose ground and in the third and final cantos were so far outdistanced that their cause was hopeless.

Lorah's proteges threw up a strong, almost impenetrable five-man defense that made the East Palestine cagers shoot from mid-floor or beyond. The field goals were the net result of the visitors' activities in this direction, six of which were made in the first half, when they were strongest.

In the third quarter East Palestine lost two forwards—Orndorff and Dolan, on personal fouls.

But at that, Coach Lorah sent an entirely new team, player by player, into the game in the third quarter until, with the period half over, none of the original five was on the floor. Elmer English, Helmie Deldrick, Brozka, Alton and Wildblood all got a chance and they fell little short, if any at all, of maintaining the pace which stopped the north countians in the earlier periods.

The passing and team play of the whole local squad stood out prominently throughout the engagement. "Teke" Bough was a stumbling block to potential East Palestine scorers as he stopped try after try in scoring territory. It was seldom that the big fellow failed to recover the ball. From his hands it went to Captain Paul English and the latter took it up the floor into the scoring zone where the Hamilton-Wilson-Pusey trio were waiting. These three lads contributed a dazzling exhibition of passing among themselves which had the visitors hanging on the ropes. Hamilton failed to get his usual quota of baskets but Jimmy was very much in the game. He was a big factor in the East Palestine basket which usually led to a field goal. At an unobtrusive, deceptive floor man, Hamilton can slick 'em in with ease and accuracy but his shots were sticking on the edges or rolling around the rim of the hoop last night.

But Wilson counted enough for whatever his teammates may have missed. He dropped the ball through the netting eight times and contributed two fouls to the grand total. Tom Pusey registered four two-pointers and English three. The latter, by the way, had a perfect record from the foul line, with three good ones in as many attempts.

Lorah's quint lost three field goals within a minute or so in the first period because of out-of-bounds and other technical rulings that stopped the count. East Palestine took off the honors in this quarter, leading by a score of 6 to 5. But the advantage was short lived. The second period was under way only a few minutes when the lead had shifted and after that it never changed.

Coffroth Race

Richest Event

First Quotations in Winter Book Draw Interest.

NEW YORK, Jan. 9.—Horsemen have taken no little interest in the first quotation of the winter books on the Coffroth handicap, which will be run at Tia Juana on Sunday, March 28.

This race at a mile and a quarter, will this year be the world's richest stake and will be worth about \$75,000 to the winner.

Osprey, Princess Doreen and Little Celt are the favorites at 10 to 1 each in the future book opened by J. P. Atkin at the Tia Juana course. Prices run from that odds to 300 to 1, with many a long shot to tempt the speculator.

The Rancocas stable's Mad Play, rated as the best of the handicappers in this country at this time, is held at 20 to 1, the price naturally being governed by his weight, he having been allotted top impost of 132 pounds.

Atkin announces that he will write any single ticket calling for \$250,000. One of the largest wagers to date in the Atkin book is that made by J. C. McGill, a former baseball magnate, who has put up \$700 on his horse Hourmore at 40 to 1. His ticket calls for \$28,000 if Hourmore should win.

McGill deserted baseball for the turf a number of years ago and has built up a formidable stable. He will have four candidates for the Coffroth, the others being Flagstaff, Spic and Span and Dominique.

SPORTS DONE BROWN

President Baker of the Phillies is quoted as saying: "I will use Jack Bentley (recently acquired from the Giants) at first base most of the time." Does this, then, solve the problem as far as Manager Art Fletcher is concerned?

It is quite probable that young Walter Huntzinger, sold to the St. Louis Cardinals by the Giants, will be given an opportunity to earn the berth of relief pitcher with the western team. The big right-hander showed considerable ability in the pinch role with the Giants during his three seasons with the New York club.

Huntzinger, formerly a star of the University of Pennsylvania ball team, joined the Giants in 1923. He warmed the bench that season, but the following one he was thrown into "hopeless" games now and then, appearing in some 12 contests. He was charged with one victory and one defeat.

Last season he broke into 26 games, mostly as a relief hurler, and emerged with five victories credited to him and but one defeat registered against him.

Johnny Dundee, who won the featherweight title just before he took to his rocking chair and slippers, now announces that he plans to come out of retirement, stand his cane up in his corner, and fight Rocky Kansas, present holder of the New York model of the lightweight championship. If he does the promoter ought to match Muthuselah and Rip Van Winkle for the semi-final.

Now the colleges plan to appeal to Commissioner Landis to prohibit professional baseball contracts to players in college. This request from the institutional heads might be considered perfectly proper were they to broaden the request to include leaders in every other business. We see no greater crime in suggesting to an underdog that he can earn an honest and remunerative living for a few years by playing baseball than in asking him to become a college coach, a broker's office boy or a tie salesman.

Official fielding averages, out recently, show that the seven other clubs in the National League finished ahead of the Pittsburgh Pirates in fielding. And that's all the good it did them.

The initial efforts of Arnaud Massey and Arthur Compston, European golf stars now invading our fair country, would indicate that they are the most formidable pair to visit us since Ted Ray and Harry Vardon, in their prime, toured the United States. What a pair Ted and Harry made!

Denies Eddie Roush Is Going to New York

CINCINNATI.—President Garry Hermann of the Cincinnati Reds yesterday issued an emphatic denial of the report that Eddie Roush will go to the New York Reds. He insisted Roush will play in the Reds' outfield next season.

Bethany Cagers Set For Opener

Clash With Easterday's Waynesburg Team.

BETHANY, W. Va., Jan. 9.—The Bisons open their basketball season with Waynesburg tonight. If the Bethany team can hit their stride as they have done in practice Waynesburg will hardly be considered dangerous.

In last year's encounter with the Yellow Jackets, the teams split a two-game series. Coach Easterday understands his opposition in the Bisons and will put his best combination on the floor to oppose them.

Coach Nuss is confident of Saturday's game with Waynesburg. The exact line-up of the Green team is uncertain but the logical men are Beckwith, Hamill, forwards, Carey and Hanna, guards, with Tinson as tip-off man. This combination showed power and strength in last night's practice.

With the opening of college Tuesday the Bison floor squad resumed practice and never before has the squad worked so well. The first string men outplayed the reserves in every phase of the game.

Beckwith, forward of the Bethany team, is in excellent shape after the vacation. In last night's workout he scored continuously and from every angle. Beckwith's floor work is fast, accurate and he is without a doubt the most dangerous forward in the Tri-State conference. Hamill, running mate for Beckwith, is an excellent choice for his position. Being by nature a port-sider, he is able to pass perfectly to any man who cuts for the basket. Hamill is an excellent shot and a good head on the floor.

OFFICERS NAMED BY RIFLE CLUB

The East Liverpool club of the National Rifle association held its regular business meeting and shoot last evening in the old power house quarters on the river road.

The high scorers were: Stewart, 50 out of 50; Culler, 49; Saling, 49; Rymer, 48; Buzzard, 47; Snowden, 47.

The following officers were named for the year: President, E. Culler; secretary, W. A. Rymer; vice president, T. A. Snowden; range officer, H. Stewart.

The club meets each Friday evening at the power house building.

LISBON TEAMS NEXT FOR HIGH

County Seat Squads in Action Here Tonight

Lisbon here tonight and the Red and Black at Salem next Friday—that's the county schedule ahead Lorah's Blue and White following its 41 to 24 victory last night over East Palestine in the first scholastic tilt of the card here.

The Salem proposition, however, is not worrying the Potters at present. Their attention is directed to the game on the local floor tonight with Lisbon, a fast little team that is expected to give them plenty of trouble.

Both the boys' and the girls' teams will be in action—the boys with a second county conquest as their goal, and the girls with just simply a victory as their objective. The local lassies were defeated by East Palestine last night and will spare no efforts in their attempt tonight to break into the win column.

The county seat five will have three veterans in Forward Hum and Guards Cornell and Leigh. None of the team is large but shortcomings in this respect they make up in dexterity and skill as they did on the football field last fall.

The games are slated to start at 7:15 and 8:15, respectively.

LISBON SQUADS WIN DOUBLE BILL

Lisbon high school teams won both ends of a double header with Columbiana teams at Lisbon last night, although by short margins.

Lisbon girls copped the preliminary, 31 to 28, and the boys were victors in the main 20, 38 to 24.

The county seat five ran away with Columbiana in the first half, the count being 29 to 8. The Lisbon regulars withdrew from the game and the second team took up the burden. But they failed to hit the pace set by the varsity and the visitors came within an ace of tying the score. With their lead slipping away, the regulars were sent back into the clash and managed to pull out with a four-point win.

The girls' game was close all the way.

Sweden will build a large broadcasting station at a cost of about \$280,000 in the central part of the country at a point which will have within a radius of 125 miles approximately 2,000,000 people.

ESPINOSA AND FRASER LEAD PRO GOLFERS

Make First Round of Los Angeles Open in 68.

By COPELAND C. BURG.

LOS ANGELES COUNTY CLUB, Los Angeles, Jan. 9.—Al Espinosa, Spanish gentleman from Chicago, and Chick Fraser, pro at the Midwick club, Los Angeles, led the pack today when the 335 golfers started play in the final 18 qualifying rounds of the ancient game's biggest purse event—the \$10,000 Los Angeles Open.

Shooting brilliant golf, Fraser and Espinosa finished the first 18 rounds with 68, two strokes under par.

Hot on their heels, just as they were in the opening 18 holes, were Harry Cooper, Dallas; Joe Kirkwood, New York, and Frank Walsh, Appleton, Wis., each with initial scores of 70.

MacDonald Smith, New Yorker, favorite to win the event, was trailing with the 72, along with Bill Mehlhorn, Chicago; George Von Elm, Chicago amateur champion, and Dewey Weber, Chicago, while Ed Geyer, Chicago; Johnny McHugh, San Francisco; and Joe Novak, Berkeley, were just ahead with 71.

Smith, playing today on the north course, which he knows well, is set to burn up the greens and came home this afternoon right at the top of the mob.

Among the players who teed off today determined to wipe out bad fortune in their first 18 holes was Charlie Chung, Chinese, champion of Hawaii, with an 81 hanging around his neck; Al Watrous, of Grand Rapids, Mich.; John Black, Wichita veteran; and Bobby Cruickshank, Oklahoma City.

Tomorrow the finalists, first 64 scorers, stroke it over 36 holes.

Last Night's Fights

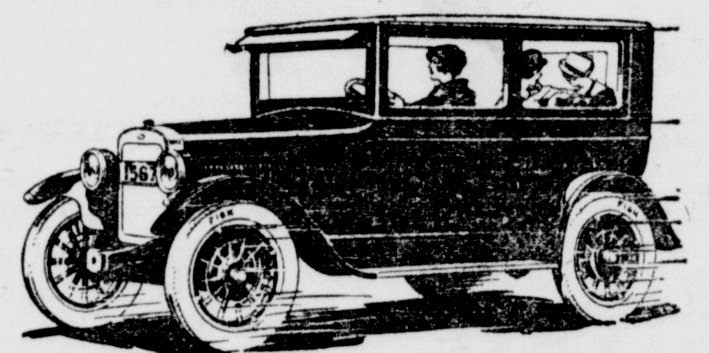

New York—Sid Terris, New York, got the decision over Lucien Vinez, France, ten rounds. Joe Glick, New York, got the decision over Danny Kramer, Philadelphia, ten rounds.

Harry Felly, New York, got the decision over Louis Vincentini, Chile, ten rounds.

Acquisition of Shortstops May Mean Cubs Will Jilt Hollocher

Charley Hollocher may not return to his big league baseball again. This has been the rumor for some time, following the failure of the former great shortstop to round into form last season.

And now comes the report that should he essay a comeback it will not be in the uniform of a Chicago Cub.

This rumor gains credence as the makeup of the Cubs for next season, judging by present plans, is weighed. Manager McCarthy has already gathered together three young shortstops he feels are ready to play the bag for his outfit if called upon. One is Jimmy Conney, well tempered vet from

the Cardinals. Another is Maurice Shannon, who learned the fine points of inflicting from McCarthy at Louisville. The third man is Clyde Beck, infielder obtained from Los Angeles.

It has been suggested at times that Hollocher might find more congenial surroundings with some other club—his desire to leave Chicago has affected his playing in recent seasons, although, of course, his main trouble has been a stomach ailment.

So it wouldn't surprise the wise boys if some kind of a deal was engineered by the Cubs in the near future which would send Hollocher to another major league outfit. And there are many clubs who would like to take a year's chance on him.

and when the young man appeared for his bout with Sid Terris at Madison Square the come-ones came right ahead to the number of 14,000.

Twenty per cent of the populace walked right out on the pastime before the tenth and final round, which gave them the well and widely known Mexican stand off. They lost their money but they saved their lives. Vinez was terrible. No less.

He fought not, neither did he box. Seemingly, he went into the ring with no other idea than to remain, as is, the regulation ten rounds. If he lost a dozen punches all night, the writer missed the other seven.

It got so bad that the merry villagers cheered ironically every time Vinez so far forgot himself as to gesture with his left, but the only trouble with that was that a gent can always go to a mass meeting and cheer for nothing. It cost the ringsters \$7.70 to the individual wallet last night.

They got slightly less than seven cents worth of action and Terris in nowise was at fault, he tried to make a fight of it but Vinez wouldn't be a party to the idea. He spent the entire 10 rounds in holding and covering up, or at least that was the writer's understanding of the situation. He, the writer, couldn't be annoyed watching the last two.

Vinez is said to be a veteran of some 43 matches and it is to be hoped that he gets plenty more of them—somewhere east of Suez. After last night's exhibition, or whatever it was, he ought to be all washed up here.

There are too many good fighters in America for the fight public today to support some foreigner of moderate ability and synthetic heart. Not one of those 10 rounds, by stretching the most elastic of imaginations, could be called against Terris. Not one of them could be called even, unless you happened to favor scoring as followed by those who draft the major league catching averages.

The solid English breakfast and light luncheon have become increasingly popular with the French people since the war and an American manufacturer of breakfast foods has been in France with the idea of starting a factory there if conditions warrant.

METHUSELAH'S WIFE

THE STORY OF A GOLF BY EDGAR DOW NOBLE WHO MARRIED FOR MONEY

FORTY-FOUR.

It was plain to Mrs. Brent Daly that her former sister-in-law was on the warpath. Mary's words had made their impression. "What is stolen can be stolen back." She wondered how Mary, feeling the loss of Noble so bitterly, had been able to stay away so long.

Naturally Mrs. Daly mentioned the matter to her husband over the dinner table.

"She probably thinks that she has reclaimed all her old beauty and charms," he said, in the cautious way that was characteristic of his relation with his wife, who dominated him utterly.

"Brent, she looks like a perfect scarecrow! And she probably spent thousands of dollars upon herself in Paris. The gown she wore was designed for some one 20 years younger. I'd say that she was after another man. If only she weren't so bitter about Noble."

Her husband ventured to laugh. "The old epigram is true, a woman has to hate one man in order to love another."

Mrs. Daly took no notice of the remark. "Well, it's Noble's fight and funeral, not mine. I did all I could."

"You did too much," Mr. Daly observed, boldly. "Noble had to marry that girl just to show you and his daughters that he wouldn't be bossed. If you hadn't loosened so many tears and entreaties, whatever interest he had in her would soon have worn off. You know how changeable he is."

"You're talking nonsense, as usual," she replied. Nevertheless her husband's words made her uncomfortable.

At the same hour, in Harwood House, Noble was announcing to Laurel, "Harry Yancey has some business to take up with me, and I invited him to come over this evening and bring Paula."

Laurel colored with annoyance. "Dearest, I'm not saying this because I mind it this evening, but the next evening you are free, let's spend it alone. I never get to see you any more."

"I get to see less of you than even your stenographer," she didn't notice the flash in Noble's eyes as she said "stenographer."

"Oh, I hope you weren't planning to go somewhere this evening. I hadn't heard you say anything about it, so I supposed—"

"Won't you understand, Noble! It isn't that I want to go out; to have you take me anywhere, it's just that I want you—to be nice to me like you used to. . . . You never ask me to play the piano for you any more."

"If you want me to, I'll phone Harry not to come over. I wouldn't have asked him, only he has some business."

"No, dear, let them come." She had not touched her consommé when Louis removed the cup. What was the use? Noble would do as he pleased. Whatever she said, he would go on making arrangements and arranging his evenings to suit himself. The honeymoon was over. She was beginning to see that he considered his own pleasure first. It had always been so, only she hadn't noticed it before. . . . The Yanceys! She disliked them both. Yet she must receive them and smile at them and endeavor to please them, just because they were Noble's friends.

"There was a short item in one New York paper about the fact that Mr. Bel-Geddes is coming here to do the decorations," Noble announced.

"Let's see, I think I have the clipping here," he knew very well that he had it in his purse, where he had carefully bestowed it when it was called to his attention.

Laurel heard him with sullen interest. She had resolved not to ask him any more questions about the details of the ball. Let him discuss them with whomever he liked, she didn't care.

Noble finally produced the small piece of newspaper and she glanced over it hastily.

"It's the first time he has ever designed settings for such an affair," Noble observed, with pride.

"I hope they're very wonderful," she felt called upon to say something. When they arose, he took her arm. "You're not feeling very well, are you?"

"I am all right, dear." Her eyes belied her tone.

He regarded her doubtfully for a moment. "Perhaps I'd better phone the Yanceys and tell them not to come."

"No, dear, I'm all right. You must attend to your business with Harry," Noble didn't like the emphasis she placed on this last sentence.

Words! Words! Words! That was all her life had gotten to be. Laurel reflected, as she sat before her dressing mirror preparing for the coming of the Yanceys. No more tennis, no more tramps, not even motoring. Imprisonment was her lot day in and day out.

She had worked herself into a bitter mood by the time the Yanceys arrived, and she greeted them stiffly. Paula's dress, the self-same model she had seen at least half a dozen times before, annoyed her. Couldn't Paula afford any better?

The men excused themselves after a moment or two. "We have a big deal to discuss," Harry explained.

Laurel, feeling very awkward, interrupted the silence that settled down in the library when the two men had gone, with: "Paula, how long did your honeymoon last?"

"Oh, we were away three weeks. We went to Florida. It was mid-win-

ter, but there weren't any such crowds as there are down there now."

"No, I don't mean your wedding trip; I mean your honeymoon. How long did it last?"

Paula regarded her blankly. Then a glimmer of understanding lighted her eyes. "You mean, when did Harry start to going out at night alone?"

Laurel smiled. "Yes."

"About two months I guess." She reached over and took Laurel's hand

understandingly. Instinctively, Laurel drew it away. She did not want Paula's understanding or sympathy.

The visitor was silent for a moment, perhaps hurt. Then she said, "I wonder what the men are talking about."

"Let's listen in." She got up and tiptoed to the door of the little-used billiard room. Laurel's eyes followed and watched her. Suddenly she saw Paula's face flush. The visitor motioned to her silently with an agitated finger.

REASONS WHY YOU SHOULD USE PLATE GLASS FOR ALL MOTOR CAR REPLACEMENTS

Plate glass is the one kind of glass to use for motor car replacements because it is true, clear and free from troubles. It has no wavy lines that curl and swirl. It hasn't any rainbow prisms, nor any humps or hollows. It makes driving easy because it helps the eye work naturally, as it should. You don't have to strain nor squint through Plate glass. It doesn't repeat objects ahead of you.

Plate glass goes into windshield or door without being pushed or forced. That saves time and trouble and means quick delivery of your car. Plate glass is worked in the making much as a carpenter works wood. So it is even-surfaced and reliable. It makes your windshield or window tell the truth, every time. And Plate glass stands road shocks and vibration. That eases up on the cost to you.

FROZEN RADIATORS

Not only mean a great inconvenience to the winter motorists but often times result in large repair bills.

This can be entirely avoided by keeping the proper proportion of denatured alcohol in the radiator throughout the winter season.

Feel free to drive up to any of our service stations and our experienced attendants, without charge, will gladly test your radiator to determine whether it contains denatured alcohol sufficient to withstand winter temperatures. For your convenience we have supplied each station with hydrometer equipment which makes this service possible.

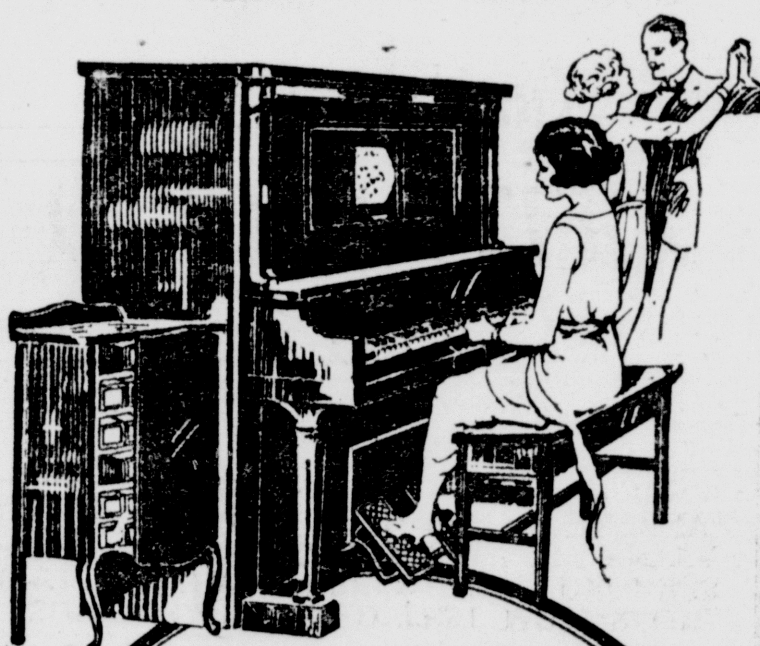

SUPER-FLASH COLD TEST MOTOR OIL, WHICH FLOWS FREELY AT 5 DEGREES BELOW ZERO, AND SUPER-FLASH WINTER GASOLINE MAKE COLD WEATHER DRIVING A REAL PLEASURE.
